DEN AMBIENTE DI PASCO

PROME EVELYN WEVER CROES A FIRMA "FALTAN CINCO PARA LAS DOCE"

4

MINISTER CU TA BRINGANDO CU INVERSIONISTA

AWOR NO KIER PA DAÑA BON NOMBER DI ARUBA PA CU INVERSIONISTANAN

13

INTENTO DI RUSIA PA BOLBE FORMA PARTI DI E CONSEHO DI DERECHO HUMANO NA NACIONNAN UNI TA FRACASA

Introduccion di RAft

Parlamentario- y Ministernan tin cu entrega 50% di salario

RAft si of RAft no, a cuminsa bira un wega politico caminda varios miembro di oposicion, ta insisti publicamente pa introduccion di ley di RAft ya cu nan ta duna e impresion cu loke nan kier, ta pa e supervision aki fortalece den un Rijkswet, lo por para Gabinete Wever Croes II na cualkier momento.

Hopi ta cuestiona e forma di procede di Prome Minister Evelyn Wever Croes, cual ta na su luga pero e situacion ta bira un tiki contradictorio, ora cu Parlamentarionan cu nan trabou ta di controla maneho di gobierno, entre e tarea principal di controla presupuestonan di e pais, ta pidi pa algun oficial publico di Hulanda bin Aruba y tuma nan tarea over.

Ta un hecho cu e problema ta sinta cerca politiconan kendenan ta mucho liga na interes politico di nan partido na luga di haci loke nan a huramenta di haci na momento cu nan a bira Parlamentario, esta di sirbi interes di pueblo como representantenan di pueblo den Parlamento.

Ya caba durante e pandemia di covid, parlamentarionan a entrega un bon pida di nan salario, cual ainda nan no a recupera pero na momento cu algun di nan ta bin dilanti y insisti pa RAft wordo introduci pa controla maneho financiero di gobierno, nan ta hungando den cierto forma cu nan propio pan.

Un di e tareanan principal Parlamento, ta di controla maneho di gobierno, sigur pa loke ta trata e maneho financiero pero na momento cu habri caminda pa RAft, e parti principal di e trabou di parlamentarionan, lo wordo tuma over pa un grupo di oficialnan Hulandes, di cual un parti di e grupo aki, ya ta aki na Aruba pa algun luna caba.

Pues e trabao ta wordo reduci cu algo mas cu 50% pa parlamentarionan pero ora cu scucha algun di nan papia riba e asunto di RAft, ningun momento nan ta bin dilanti y confirma cu nan ta dispuesto pa yuda controla gastonan di personal di gobierno, entregando 50% di nan salario.

Si RAft yega ta nan deseo, nan tin cu mustra cu nan tambe ta serio y bin dilanti y ofrece reduccion di salario ya cu nan responsabilidad ta bira menos, hopi menos caminda ta lesa nan tin cu lesa e presupuesto y pa respet ey comision di RAft lo permiti nan lesa y haci algun pregunta riba presupuestonan den futuro.

No ta solamente parlamentarionan tin cu entrega 50% di nan salario, al contrario tin un of dos Minister cu nan responsabilidad tambe ta wordo reduci na momento cu RAft bin dilanti y wordo fortifica pa un Rijkswet, ya cu e posibilidad ta existi cu den futuro ta e propio comision di supervision di RAft aki, ta esun cu ta supervisa y ta dicidi kico por gasta y kico no por gasta, kico y na unda por inverti, loke ta reduci cabalmente e responsabilidad di e Minister di Financia.

Parlamentarionan cu ta papia tur ora di integridad den gobernacion, ta papia di 'good governance' sin duda tin cu realisa cu yegada di RAft ta pone cu nan tin menos pa haci, menos responsabilidad pa carga y tur loke lo resta Parlamento di Aruba, ta haya oportunidad pa lesa e presupuestonan di futuro.

Den ambiente di Pasco

Prome Evelyn Wever Croes a firma "faltan cinco para las doce"

Nestor Zavarce tabata un cantanteVenezolano masha popular den decadanan '50 y '60, principalmente pa su cancionnan pa temporada di Pasco y fin di aña.

Un di e cancionnan pa fin di aña cu te awe ainda por ser scucha durante di cambio di aña, ta esun di "Faltan cinco para las doce" cual ta un cancion cu entre otro "Roberto" den feliz memoria, tabata laga resona pa anuncia cu fin di e aña ta yegando y otro nobo ta den cuminsa.

Ta riba e cancion aki hopi hende a lanta ayera ta pensa ariba, ora cu a bin sali na cla cu Prome Minister Evelyn Wever Croes, kende inicialmente a declara cu e lo no firma e refinanciamento di e coronalening cu 6.9% di interes pero den oranan laat di atardi, net prome cu 6'or ora di Aruba, a core firma e documento pa Alexandra van Huffelen pa asina manda esaki prome cu 12'or di anochi a bati na Hulanda.

Ora cu tuma nota di publicacionnan na Hulanda riba e asunto aki, por a lesa entre otro:
"De regeringen van Curacao en Aruba, hebben dinsdagavond LETTERLIJK om vijf minuten vor 12, ingestemd met het aanbod van Nederland hun coronaleningen te herfinancieren. Daarmee waren de landen geen minuut te vroeg, want den huidige leningenen liepen op 10 oktober af. Zonder een akkoord waren de leningen directi opeisbaar geweest."

Algo realmente no ta klop den e actitud di tanto gobierno di Corsou como esun di Aruba, mirando cu Secretario di Estado van Huffelen a haci un apelacion nan tanto Premier Gilmar Pisas como Premier Evelyn Wever Croes, si nan por forma e acuerdonan di prestamo aki den oranan di Hulanda den curso di mainta pero ambos a dicidi di neglisha e peticion aki y a dicidi di manda e documentonan aki net prome cu mey anochi, segun informacion ricibi for di BZK.

Kico e dos mandatarionan aki lo kier a logra cu e actitud aki no ta conoci pero aki tin cu señala cu esakinan no ta forma di 'morde e man cu ta yuda bo,' segun un dicho conoci aki na Aruba ya cu e propio Minister Presidente Wever Croes, ayera mainta durante di un conferencia di pensa a mustra cu nan lo sigui negocia cu Hulanda pa trata di reduci e interes cu Aruba lo tin cu paga pa 20 aña di 6.9%.

WEGA POLITICO

No ta momento pa hunga e tipo di weganan politico aki sin sentido y mescos cu e lider di MEP diamars atardi el a declara cu el a firma e documento ya cu "nos no kier cu e reputacion di pais Aruba, core ningun clase di riesgo," pero

cu e tipo di 'chansanan' di firma net prome cu e tempo limite expira, sin duda tambe lo atacha credibilidad di su gobierno den bista di Hulanda.

Ayera mainta durante di otro conferencia di prensa cu Premier Wever Croes a yama riba e asunto aki, tampoco el a duna un splicacion adecuado ta di con e decision pa firma net prome cu 12'or di anochi, caminda mirando cu Prome Minister Pisas di Corsou tambe a haci esaki den mesun estilo, a crea e impresion cu nan dos tabatin un tipo di palabracion pa trata di irita van Huffelen mas tanto cu por pero firma prome cu e fecha di 10 di October vence.

Ayera mainta tambe e prome mandatario a referi na un disertacion den Eerste Kamer riba e forma con gobierno Hulandes ta tratando henter e asunto di RAft cu gobierno di Aruba, esta Peter Nicolai di fraccion di Partij van de Dieren, cu a mustra cu loke Hulanda ta haciendo cu e asunto di refinanciamento di e coronalening aki, no ta corecto y ta viola autonomia di Aruba.

AWEMainta luna pasa y kisas e luna anterior tambe, a publica articulonan cu e forma con Hulanda ta comportando su mes c'un saco di placa den cara di e islanan CAS, no ta e forma mas respetuoso pa atende cu asuntonan asina.

Prome Minister y su gobierno no por dicidi di sconde awor tras di lomba di Nikolai ya cu tin suficiente argumento pa sigui discuti cu Hulanda riba e trato abusivo aki cu simplemente no ta cuadra den e tempo moderno aki.

Henter e refinanciamente di e coronalening aki, gobierno Hulandes a transforma esaki den un tipo di "grabbleton" riba un feria caminda ta na Den Haag a hinca e premionan den e bari, ya cu e forma cu ta papia di interes di 3.5% y 'trapgewijs' ta yega na 6.9%, simplemente no ta algo digno y tampoco corecto!!

Minister cu ta bringando cu inversionista

Awor no kier pa daña bon nomber di Aruba pa cu inversionistanan

Diamars atardi laat pa exactamente 5.55, gobierno di Aruba e manda e acuerdo firma pa loke ta refinanciamento di e 'coronalening' manera cu Hulanda a solicita pa esaki sosode y despues cu a dirigi e carta aki pa van Huffelen, Minister Presidente y Vice Minister Presidente a declara den un grabacion cu e departamento di noticia di gobierno a graba riba a tuma luga.

Un declaracion cu tabatin un duracion di net 4 minuut di cual Prome Minister Wever Croes a tuma gran parti di e grabacion pa duna declaracion mientras cu Vice Prome Minister Ursell Arends, tabatin mag di bisa algo un minuut y 27 seconde.

Prome Minister a bisa tur cos caba y den cierto sentido, no tabatin necesidad pa Minister Arends a haya oportunidad pa ripiti practicamente loke su hefe ya caba a declara.
"Mi ta subraya manera Minister President a bisa, Aruba a firma pa asina aki mantene nos bon reputacion cu tur inversionistanan internacional cu pa ultimo 20 aña sigur, a bin ta financia y inverti den Aruba pa di e forma aki nos a desaroya.

E mensahe cu Aruba a firma a cay den bon tera tambe cerca nos inversionistanan y awor aki como gobierno di Aruba, nos meta ta pa sigui negocia pa asina yega na un miho interes.
Mester bisa cu ningun hende ta contento cu e 6.9% di interes y p'esey mes nos dedicacion, nos commitment di gobierno di Aruba ta di sigui negocia, sigui na mesa pa asina aki nos por yega na un miho deal cu ta beneficia nos ciudadanonan.

Aruba ya caba ta e unico pais den Reino, despues di covid, cu tin surplus, Aruba ta e unico pais den Reino cu ta cumpliendo cu tur loke Hulanda ta exigiendo di nos, hasta e Landspakket y nos lo sigui mustra nos commitment cu nos a sigui desaroya, sigui mantene e maneho financiero responsabel cu e gobierno aki a bin ta hiba pa asina aki nos por sigui gana y mustra mundo henter cu Aruba ta bay den e bon desaroyo, e bon rumbo pa loke ta trata maneho financiero."

CONTROVERSIAL
Reaccionnan cu a drenta ayera mainta na AWEMainta entre otro a mustra si Minister Arends mes a realisa kico el a bisa,

ya cu el a bolbe mustra cu e no tin nocion di kico e ta haci, kico ta su maneho y unda e kier bay cu su maneho sigur ora cu el a bisa lo siguiente:

"Aruba a firma pa asina aki mantene nos bon reputacion cu tur inversionistanan internacional cu pa ultimo 20 aña sigur, a bin ta financia y inverti den Aruba pa di e forma aki nos a desaroya."

Minister Ursell Arends a lubida por completo su confrontacion cu inversionistanan di Embassy Suites caminda pa un pida beach cu e inversionistanan aki mes kier forma, ainda tin e inversionista aki wanta y sin cu ta tuma un decision pa caba.
Ta increibel cu e mesun Minister aki, cu a bandona su oficina pa bay para riba un pida beach na Eagle cu ningun hende ta uza, pa via di un decision di Corte, para e trabou di e inversionta di Embassy Suites pa drecha e luga y crea un sitio cu turistanan por sinta y gosa di e lama blauw y bunita y e biento fresco cu tin.

Ta cu e tipo di decisionnan aki e bon reputacion di Aruba ta bay perdi cu inversionistanan, cu ya caba a inverti miyones den un proyecto asina grandi, awor ta wordo stroba pa inverti pa drecha un beach cu e gobierno di Minister Arends, nunca a haci limpi, nunca a duna atencion na e area aki pero pa colmo e mandatario aki a dicidi di hiba su propio gobierno, su propio Prome Minister Corte pa decisionnan cu Evelyn Wever Croes a tuma relaciona cu e proyecto cu Embassy Suites.

Minister Geoffrey Wever:

Ta importando mas den 2023 compara cu 2022

Riba 29 di september a sali un articulo den medio di comunicacion cu e titulo “Importacion den luna di augustus a baha cu 34 miyon”. E articulo menciona no a indica cu ta trata di specificamente luna di augustus 2023 compara cu augustus 2022.

Si analisa e cifranan publica pa CBS, cifranan te cu fin di augustus di 2023, ta mustra cu e balor di productonan importa a yega un suma total di Afl. 1.8 biyon. Di e suma aki, Afl. 1.71 biyon ta destina pa produccion y consumo local y Alf. 90 miyon via Freezone pa exportacion. E peso total te cu fin di augustus di 2023 a yega un total di 467 miyon kilo di cual 460 miyon kilo ta e peso importa pa produccion y consumo local y 7 miyon kilo via Freezone pa exportacion.
Aruba como economia chikito ta importa mayoria productonan cu cada un di nos ta cumpra den supermercado of tienda. Ta trata di entre otro productonan pa uzo diario manera cuminda, bebida te material di construccion. E productonan ta yega Aruba via barconan o avionan di diferente paisnan y ta destina pa produccion y consumo local of Freezone. Tur productonan ta wordo categorisa den seccionnan manera por ehempel productonan alimenticio.

Si haci un comparacion entre augustus 2023 cu augustus 2022, e data ta indica cu den augustus 2023 a importa 34 miyon florin menos cu augustus 2022. Analisis ta mustra cu den augustus 2023 a importa pa 15 miyon florin menos na Petrochemical products, 14 miyon menos na Meat, Fish and Seafood, Dairy Products destina na produccion y consumo local, y Freezone 5 miyon florin menos na Food Products.

Pa loke ta trata augustus 2023 compara cu juli 2023, e data ta mustra cu a importa pa 3.6 miyon florin menos pero a importa den peso 33 miyon kilo mas. Di e 96 diferente seccion di producto, di carni te cement, 52 seccion ta mustra cu a importa 33.3 miyon florin y 11.2 miyon kilo menos, mientras 44 seccion ta mustra cu a importa 26.7 miyon florin y 45 miyon kilo mas destina pa produccion y consumo local.

Informacion publica pa Oficina Central di Estadistica ta indica un subida den balor y peso te cu fin di augustus di 2023 compara cu 2022. Den 2022 te cu fin di augustus, e balor di importacion tawata 1.6 biyon florin cu un peso di 433 miyon kilo. Esaki ta nifica cu te cu fin di augustus di 2023 e balor di importacion total a subi cu 180 miyon florin of 11 porciento compara cu te cu fin di augustus 2022. Pa loke ta trata e peso, te cu fin di augustus di 2023 e peso total a subi cu 34 miyon kilo of 8% compara cu te cu fin di augustus di 2022.

E cifranan publica pa CBS ta mustra cu te cu fin di augustus 2023 ta importa mas den balor y peso compara cu 2022. Esaki ta un indicacion cu aunke nos ta importa mas tambe den peso, nos ta paga mas tambe pa e productonan importa, nivel di prijsnan internacional ta keda relativamente halto.

Ministerio di Asuntonan Economico, Comunicacion y Desaroyo Sostenibel ta monitor continuamente desaroyo di importacion y exportacion di productonan y su impacto riba economia di Aruba.

Minister Geoffrey Wever ta gradici CBS pa e trabao diario y publicacion di datonan di sumo importancia pa nos economia.

Pa mas informacion over di cifranan di importacion y exportacion di nos pais por bishita e website www.cbs.aw

Gobierno lo cana diferente trayectoria pa logra baha e interes riba e fiansa di 6.9% stipula pa Hulanda

PAISNAN DEN REINO	SINT MAARTEN	CORSOU	ARUBA
A ACEPTA CONDICION?	SI	NO	NO
INTERES %	3.4	5.1	6.9

Durante conferencia di prensa di Gobierno di Aruba diaranson mainta, Prome Minister Evelyn Wever-Croes a elabora riba e interes di 6.9% cu Hulanda a duna Aruba riba e fiansa haci durante pandemia. Prome Minister a indica cu el a informa Hulanda, cu e interes aki no ta uno cu Aruba a yega di paga den pasado, y cu e ta demasiado halto pa wordo considera un ayudo. "E palabracion tabata cu Hulanda lo fia Aruba e placa na un interes di mercado internacional, cu ta rond di 6%, pero lamentablemente, Hulanda no ta dispuesto pa cambia esaki. Esaki sigur ta un decepcion grandi pa Aruba, mirando cu como pais den Reino, lo spera pa haya un ayudo, y no un interes cu ta igual cu riba mercado internacional", Prome Minister a expresa.

Otro aspecto decepcionante, segun Prome Minister, ta e hecho cu si Aruba keda cu e porcentahe di 6.9% pa 20 aña, Hulanda lo gana un suma adicional riba e fiansa di 300 miyon florin, cu ta un suma hopi halto pa wordo considera un ayudo na pais Aruba.

Tambe, Prome Minister a splica cu mirando e resultado di e interesnan pa cada pais den Reino, por nota cu no tin igualdad. Si compara Aruba, Corsou y Sint Maarten, por mira cu Sint Maarten a acepta e condicion di regla e asunto di Ennia, y a haya un areglo na un interes di 3.4%. Corsou no a acepta e condicion, y a haya un interes di 5.1%. Aruba tampoco a acepta e condicion di RAFT y a haya 6.9%. "E diferencia aki no tin hustificacion, y ta pone pais Aruba sinti cu den e Reino aki, no tin igualdad", Prome Minister a expresa.

"Ta importante pa enfatisa si, cu e situacion aki no lo kibra pais Aruba, y cu nos lo sigui padilanti cu e siguiente pasonan pa purba baha e interes aki", Prome Minister a enfatisa. Un di e trayectonan pa purba baha e interes, ta pa sigui na mesa cu Hulanda, y purba na yega na un solucion hibrido, of pa bay busca riba mercado internacional un interes mas abou. Mientrastanto, mirando e scarsedad di tempo, Gobierno a haye den un posicion cu mester a firma cu Hulanda, aceptando e interes di 6.9%, cu e compromiso pa busca otro solucion cu miho resultado pa pais Aruba.

"Mi mester bisa cu e tempo di negociacion cu ta tras di lomba, no tabata uno facil. Tambe varios expresionnan incorecto di parti di gobernantenan y Parlamentarionan Hulandes no tabata yuda e situacion. Tabata temponan pisa cu ta tras di lomba, y a pesar cu e resultadonan actual ta decepcionante pa pais Aruba, nos lo sigui lucha pa bay dilanti. E interes cu Aruba a haya, compara cu e otro islanan, ta manera un castigo y ta mustra claramente cu no tin igualdad den Reino. Mi ta kere cu Reino por a haci hopi mas pa nos.

Aruba ta pasando den un recuperacion impresionante, y e proyeccionnan padilanti tambe ta hopi positivo. Nos sa cu e bienestar y progreso no a yega den tur cas ainda, y p'esey nos compromiso ta pa sigui traha y percura pa e progreso aki yega tur caminda. No ta e Gobierno aki a causa e problemanan di e pais aki, pero nos ta comprometi pa soluciona nan. Nos ta kere den e forsa y resiliencia di nos hendenan, y como pais bendiciona, nos sa cu Aruba lo bay padilanti", Prome Minister Evelyn Wever-Croes a expresa.

NewLeaf NOTARY

OPENBARE VERKOOP

Ten overstaan van notaris mr Chamila Agnella Tromp of haar waarnemer zal op **VRIJDAG 20 OKTOBER 2023 om 10:00 uur 's-morgens bij de Kamer van Koophandel (Auditorium)** aan de L.G. CENTRALE BANK VAN ARUBA

PERSBERICHT

De Centrale Bank van Aruba (CBA) heeft kennisgenomen van het persbericht van de Centrale Bank van Curaçao en Sint Maarten (CBCS) van 7 oktober 2023 (PB 2023-033), getiteld Update over herstructurering Ennia.

In dit persbericht deelt de CBCS mee dat zal worden afgezien van een doorstart en dat de komende weken zal worden gewerkt aan een gefaseerde en gecontroleerde afwikkeling van Ennia Caribe Leven NV (ECL). Aangekondigd wordt verder dat de CBCS dit scenario verder zal uitwerken samen met de regeringen van Curaçao en Sint Maarten en dat 'vanzelfsprekend ook [zal] moeten worden bezien hoe het best om te gaan met de gezonde onderdelen van de Ennia-groep (…)'. In dit kader noemt de CBCS ook Ennia Caribe Schade (Aruba) N.V. en Ennia Caribe Leven (Aruba) N.V.

Ten aanzien van de Arubaanse Ennia-entiteiten merkt de CBA op dat voorafgaande toestemming van de CBA noodzakelijk is, alvorens enige rechtmatige beslissing ten aanzien van deze entiteiten kan worden genomen.

De CBA heeft tot taak de stabiliteit van de onder haar toezicht staande instellingen te waarborgen en zal niet schromen om – zo nodig – maatregelen te treffen ter borging van de belangen van de polishouders van de Arubaanse Ennia-entiteiten en ook onverwijld op te treden tegen partijen die handelen zonder verkregen voorafgaande toestemming van de CBA met betrekking tot de Ennia Aruba-entiteiten.

Cas cu a kima ta pertenece na conocedo recidivista

Diamars anochi algo prome cu 8'or 911 ta haya informacion cu lo tin un cas na candela na San Fuego. Polis na su yegada a bin topa enberdad cu un candela grandi na e dicho adres.

Algun rato despues dos unidad di Brandweer a presenta y tambe OVD.
Den algun rato nan a domina e candela. Segun nos por a compronde lo ta trata di e cas unda e recidivista Jean Pierre Croes ta biba.

Homber a coy yabi di dama pero a entreg'e bek

Diamars, den careda di 2'or y mey, un dama a presenta na ward'i polis di Shaba, caminda cu el a declara cu e tabata den supermarket cerca di 10'or y 15 di mainta y a laga yabi di su auto Kia Rio colo blanco, riba balie.

Na dado momento, el a scucha manera un hende lo a bay cu un yabi. E no a mira esaki. E momento ey el a descubri cu yabi di su auto no tabat'ey ningun caminda. El a purba un trahado n'e sitio si el a mira un hende cu por a bay cu su yabi. Dado momento el a bay n'e porta a habri eski y a wak pafo, pero no a mira ningun hende.

Mientras cu e dama tabata papia cu e trahado Chines, un homber desconoci a acerc'e di patras. Ora cu el a draai, el a mira e homber tabata purba di entreg'e e yabi, splicando cu el a haci un fout y a coy accidentalmente su yabi di auto. E homber tabatin cuero bruin, mustashi, tabatin bril bisti, cabey preto y tabatin un carson largo colo bruin scur y un camisa di manga cortico bisti. A avisa central riba esaki.

Accidente pisa entre brommer y auto

Dos persona transporta den estado critico pa Hospital

Diaranson marduga algo prome cu 1'or, polis y ambulance ta wordo alerta di un accidente pisa ariba e crusada di Adriaan Laclé Boulevard cu L.G.Smith Boulevard.

Brommer cu auto

Tawata trata di un Kia Picanto shinishi y brommer marca BMW S1000R. Ariba e brommer tawata tin dos persona, un cabayero y un dama. Ambos a ser haya den situacion serio benta ariba caminda.

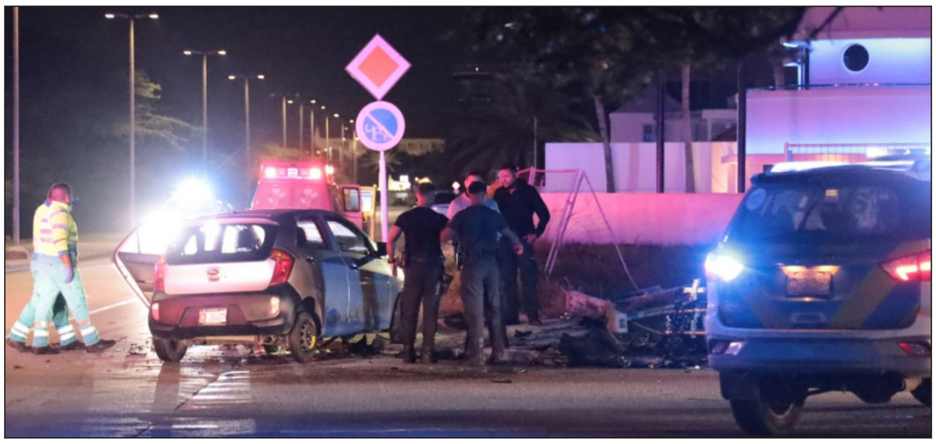

Testigo

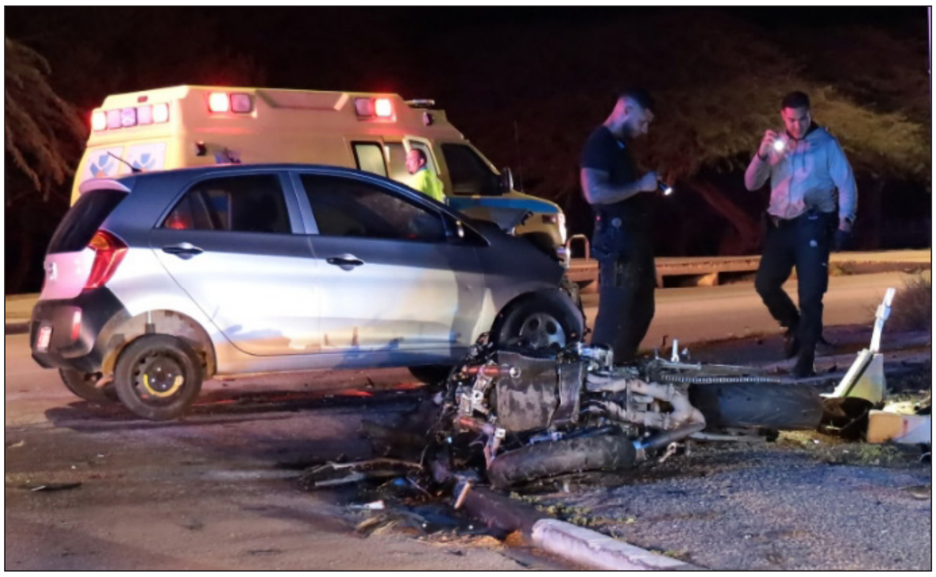

Na e sitio nos a papia cu dos testigo. Ambos tawata tin un version. Segun un di e testigonan; e brommer no tawata biniendo cu luz y e segun e otro testigo e brommer tawata tin su luz cendi.

Locual a sosode

Na e sitio nos a compronde cu e Kia Picanto tawata bayendo direccion pariba y e brommer lo tawata biniendo cu velocidad bayendo pabou. Eynan ta sosode un impacto frontal; unda cu e brommer BMW casi nada a resta di dje, y unda e dama ariba dje ta bay cay como un 30 pa 50 meter mas pabou ariba acera. E cabayero a keda benta mas cerca di e brommer.

Varios partinan di e BMW a spart meternan leu; di unda e impacto a tawata. Tres ambulance a presenta na e sitio unda cu rapidamente a prepara e dama y sali cu maximo urgencia direccion Hospitaal. Despues un otro ambulance a sali cu e cabayero.

Algun departamento a wordo notifica y por a mira manera BFTO(departamento tecnico) y tambe Specialista di Trafico, Fiscal y Hefe di Trafico.

Pues full un investigacion a cuminsa e ora ey, mirando e magnitud di e accidente. Chauffeur di e Kia Picanto a wordo deteni na e sitio, y ta wordo hiba den patruya mes pa warda, unda cu lo bay haci otro test mas di alcohol cu ne. Paramediconan mester a haci un check up cu un di e testigonan, debi cu e la bira malo di locual e la presencia.

E accidente aki ta sosode exactamente unda tin un cruz, di un accidente di brommer cu a sosode un 2 aña y mey pasa cu resultado fatal.

Hincamento formal na Parkietenbos

Diamars, 10 di october, pa mas of menos 7:35 di mainta, polis a bay cu urgencia direccion di Parkietenbos relaciona cu un caso di hincamento. Eynan a bin topa cu un otro patruya, cu tabata sigurando e luga di e echonan. Poco despues, a informa a traves di central di polis, cu e sospechoso envolvi den e hincamento, tabata na Ecotech situa na Barcadera. E sospechoso a horta un truck y a purba di huy.

Eynan polis a papia cu un manager di Ecotech den cuadro cu e informacion anterior. El a declara cu no a inform'e di e caso. Poco despues, otro empleado di Ecotech a acerca y a meciona cu e sospechoso tabata panort di e edificio.

Polis e momento ey a bay n'e luga di e incidente. Eynan a mira un homber den un truck. Tabata trata di un conocido di polis y di husticia yama C. C. tabata completamente sunu y muha y por lo tanto, soda

Polis a exigi C p'e sali for di e truck, cual exigencia e no a cumpli cu ne. A purba di saca C. for di e truck, pero esaki a tira su mannan den direccion contrario. Como reaccion riba esaki, polis a gara C. cu ambos man, a sac'e for di e truck y a bente abao di biaha. A tuma luga un forsegeo caminda cu polis a wanta C. na su brasa y pianan y el a mustra resistencia p'esaki.

Despues di e informe menciona, a detene C. panort di Ecotech. Despues di su detencion un otro empleado di Ecotech a aparece y a declara cu C. a purba di horta un otro truck. E sospechoso no tabatin paña, pa cual no a haya nada relevante. A pone central na altura.

Den ora di marduga:

Dos chabalito a horta pickup na Savaneta

Diamars, den careda di 3'or di marduga, central di polis a informa cu un joyriding a tuma luga y cu un hende lo tabata persiguiendo e auto marca Ford, modelo Sport Trac, colo shinishi. Fuera di esey central a informa cu fuera di esey, dicho auto tabata para cerca di Caya Corsou y cu dos mucha homber lo a huy den dje.

Un di e hobennan tabatin un sweater colo cora cu hoodie y carson cortico, di colo cla, mientras cu e otro tabatin un flanel colo blanco y carson cortico. E hobennan a huy den un direccion desconoci. Yegando cerca di Caya Martinique, e agentenan a mira dicho auto para memey di caminda. E portanan di chauffeur y di pasahero tabata habri y e luznan tabata cendi.

E yabi di e auto tabata na e starter. A controla den e cayanan di Village y den vecindario di San Nicolas, pero no a bin topa cu ningun hende cu e descripcionnan duna di e sospechosonan. A avisa personal di BFTO.

A confisca e auto y hib'e a warda si Santa Cruz pa un investigacion mas detaya. A tuma declaracio di e doño di dicho auto.

Difusion di desinformacion riba red social memey di e conflicto entre Israel y Hamas

Despues di e reciente atake di Hamas contra Israel, varios plataforma di medio social, specialmente e red social X di Elon Musk, a experimenta un aumento di video, imagen y informacion engañoso fabrica relaciona cu e conflicto andando.

Poco despues di e atake, X, propiedad di Elon Musk, a yen'e cu contenido inventa y desinformacion relaciona cu e situacion. Un ehempel notabel tabata un video comparti pa Ian Miles Cheong, un comentarista di extreem links cu cual Musk ta colabora hopi biaha, caminda cu e ta afirma falsamente cu e combatientenan Palestino tabata haci daño n'e ciudadanonan Israeli.

Aunke e funcion Community Note di X a aclaria cu e personanan cu tabata aparece den e video tabata miembro di e forsanan di siguridad Israeli no di Hamas, e video engañoso ta sigui ta accesibel y a haya miyones di views. Fuera di esey, hopi otro cuenta di X, incluyendo algun cu marca di verificacion, a difundi e video aki.

Aunke e desinformacion tambe e otro rednan social a propag'e, manera Facebook, Instagram y TikTok, X ta parce mester a confronta e mayor desafio pa combatie. Esaki por atribui n'e manehonan revisa di Musk cu ta permiti ken cu ta paga p'e verificacion, combina cu despido substancial den e ekiponan di confiansa y siguridad di X. A pesar di e dificultadnan aki, X, Meta (e empresa mama di Facebook, Instagram y Threads), TikTok y BlueSky ainda no a responde n'e preguntanan riba su enfoke di e problema aki.

Dialuna, X a informa cu el a supera 50 miyon mensahe relaciona cu e conflicto durante fin di siman. Como respuesta, e compania a revela cu el a tuma medida pa elimina e cuentanan crea recientemente vincula na Hamas, a marca decenas di miles di publicacion pa comparti contenido grafico y discurso di odio y a actualisa su maneho pa defini loke e ta considera "di interes periodistico."

Irina Raicu, director di e programa di etica riba internet di e Universidad di Santa Clara, a señala cu e principal plataformanan di e medionan social sa pone enfasis riba e cantidad di mensahe elimina y cuenta blokia, pero rara bes ta proporciona metrico riba e alcance di su fayonan na ora di evita distorsion.

Den e ultimo añanan, a explota e plataformanan di e medionan social repetidamente p'e actornan malicioso pa difundi desinformacion durante e conflictonan di mundo real. Esaki tabata evidente durante e crisis India-Pakistan di 2019, cu tabata testigo di un aumento di rumor y falsedad riba plataforma manera Twitter y Facebook.

Mas recientemente, X a haci publicacionnan similar na esun di un usuario conoci como The Indian Muslim, cu a comparti un video engañoso dunando sosten na Hamas. E investigadonan di desinformacion, sinembargo a determina cu e video aki tabatin su origen den e video game Arma 3.

Otro post di Jim Ferguson a afirma falsamente cu tabata mustra e soldanan di Hamas uzando arma Mericano bandona na Afganistan. Community Notes a aclaria cu riba e potret nan tabata parce en realidad solda Taliban di 2021.

Dina Sadek, investigado di DFRLab di Atlantic Council, a subraya e prevalencia di imagen obsoleto y recicla cu ta circula riba Internet, loke ta dificulta e usuarionan diferencia realidad di ficcion. Desinformacion no ta limita na un plataforma so, sino cu hopi biaha ta migra entre TikTok y X, loke ta complica e lucha contra falsedad.

Imran Ahmed, director general di Center for Countering Digital Hate, a señala cu "e afluencia di individuo cu ta difundi informacion falso riba e crisis entre Israel y Gaza, combina cu algoritmo cu ta promove agresivamente contenido extremo y perturbador, ta subraya pakico e rednan social a converti den un fuente di informacion poco confiabel."

El a sostene cu e empresanan tecnologico a mustra desinteres, ora cu no tin complicidad absoluto, den e suministro di propaganda peligroso.

Intento di Rusia pa bolbe forma parti di e Conseho di Derecho Humano na Nacionnan Uni ta fracasa

Den un acontecimento significativo na Nacionnan Uni, e intento di Rusia pa recupera su posicion den e Conseho di Derecho Humano di UN, a fracasa. A expulsa e pais for di e prestigioso organismo aki di derecho humano na april di aña pasa, despues di su invasion militar na Ucrania. Rusia kier a sigura un mandato nobo di tres aña den e Conseho, loke por pone di manifiesto, e divisionnan entre e estadonan miembro di UN, encuanto su postura di sosten na Ucrania.

Sinembargo, e posicion di Oost Europa den e Conseho tabata finalmente ocupa pa Bulgaria y Albania. E votacion aki a tuma luga despues di e atake tragico Ruso cu misil cu a cobra bida di 52 persona den e localidad Ucraniano di Hroza, noordoost di e pais.

E resultadonan di e votacion a mustra cu Rusia a ricibi 83 voto na fabor di e 193 miembronan di e asamblea general di UN, mientras cu Bulgaria a haya 160 voto y Albania 123. Prome cu e votacion, e embahador di Albania, Ferit Hoxha, a subraya e importancia cu e estadonan miembro tin pa demostra cu nan no tabata dispuesto pa "acepta un piroman como bombero."

Rusia a compromete pa aborda adecuadamente e problemanan di derecho humano y a expresa su deseo pa evita cu e Conseho uza como herment e servicionan di e agendanan politico di e paisnan determina, un referencia cu hopi biaha ta interpreta como dirigi n'e nacionnan occidental.

E diplomaticonan a señala cu Rusia a purba di reconstrui su credibilidad internacional, despues di a enfrenta e acusacionnan di violacion generalisa di e derechonan humano, tanto na Ucrania como dentro di su propio fronteranan. Rusia a afirma cu e tabata conta cu e sosten di varios estado miembro, specialmente di e mundo den desaroyo, den e proceso di votacion confidencial. A sugeri cu e nacionnan aki lo a simpatisa den priva cu Moscu, pero a abstene pa duna sosten abiertamente su regreso n'e Congreso pa evita enemistad cu e nacionnan occidental.

Tin di señala cu e campaña di Rusia pa su reingreso a caracterisa p'e tacticanan asertivo, manera ofrece incentivo manera grano y arma n'e paisnan mas chikito a cambio di nan voto. Vassily Nebenzia, embahador di Rusia na UN, a acusa Merca di encabesa un campaña pa impedi su reincorporacion n'e Conseho.

E suspension di Rusia di e conseho di derecho humano na april di 202, a conta cu 93 miembro di e asamblea general di UN na fabor, 24 en contra y 58 abstencion. E conseho recien constitui p'e añanan 2024 pa 2027, lo ta forma pa Albania, Brasil, Bulgaria, Burundi, China, Cote d'Ivoire, Cuba, Francia, Ghana, Indonesia, Hapon, Kuwait, Malawi, Hulanda y Republica Dominicana.

Eric Ras(Curpa):

Un mensahe pa nos Minister-President: “Al is de leugen nog zo snel, de waarheid achterhaalt ze wel”

Nos tin un gobierno cu ta sin palabra y no ta cumpli cu acuerdonan. Un gobierno cu ta gusta manipula y semper ta hunga victima. E manera di procede di e gobierno aki ta demostra un mentalidad anti-democratico. Nos tin un minister president cu ta papia puro mentira y na final a coba un buraco cu e mes a cay den dje. COHO a cambia pa Onderlinge Regeling cu de hecho ta nada mas cu e RAFT. Mientras tanto tur e landpakket cu ta den COHO si ta den full swing.

Hulanda nunca a pone presion riba isla di Aruba sino como un bon piscado a laga pais Aruba horca su mesun curpa. E mega debe a cuminsa na partido MEP y awe e mesun gobierno bao signatura di partido MEP a crea un GIGA DEBE.

Si nos mira cuanto placa a wordo fia riba mercado internacional anto nunca nos por bati man pa un gobierno cu ta haci uzo di un intermediario pa subi mercado internacional. E intermediario aki a contribui pa sink Aruba financieramente.

Partido MEP a cuminsa cu n’e, partido AVP a sigui y awor partido MEP ta sigui cu mesun mal ehempel. E resultado di e mal gobernacio ta cu pueblo ta paga tur debe. Si gobierno firma e RAFT of keda sin firma e RAFT lo no haci ningun diferencia.

Tan ten cu e gobierno aki ta na poder lo no tin cambio di maneho y lo no uza ningun placa pa proyectonan nan nobo. Despues cu economia mundial cay nos lo mira e horizonte nobo.

Historia a demostra cu partido MEP ta un partido di medida y esaki ta demostra nan ideologia socialista/comunista. Pais Aruba a drenta un Status Aparte cu debe pa mal maneho di partido MEP paso bao di nan mando situacion financiero di Aruba a bay atras. Ora cu nos refineria Lago a cera su porta el a laga 340 miyon florin y te dia di awe ningun no a duna cuenta unda e placa a bay.

E ta un tristesa di mira con hende grandi ora di campaña ta bisa un cos y despues ta dal pueblo un puñal den lomba. Nos pueblo trahado mester a entrega beneficionan. Nos por corda cu a kita 7.3/4 di salario y e solidariteitsbelasting di 8.2%. Un gobierno serio no ta sigui goberna a base di mentira y no por goberna riba un fundeshi di corupcion paso esey ta haci cu bo partido na mando no tin integridad y bo no ta miho cu esun cu a baha.

Gobierno ta papia riba e presupuesto di 2024 cu lo tin un surplus. Gobierno ta draai aña tras di aña riba un refinanciamento di debe di 105 miyon. E aña aki so gobierno a fia 474.25 miyon florin. E ora ey ken nos kier gaña cu pais Aruba tin un surplus den nos presupuesto 2024.
Laga nos reflexiona y pensa si e gobernantenan aki ta stima nos Aruba dushi tera of nos gobernantenan aki a converti nan mes den un traidor di pais Aruba pa nan propio beneficio. Nos mester tuma Hulanda tambe na malo paso Hulanda tampoco no a sali na interes di e pueblo di Aruba. Hopi cos ta pasa tras di cortina pero Dios lo saca tur cos na claridad.

Pais Aruba a yega un crusada cu no por vota pa emocion mas ni pa ta simpatisante di un partido politico. Nos ta den e tempo pa tin gobernantenan di palabra y cu ta cana den integridad. No di hendenan cu ta yama nan mes cristian pero cu ta bay contra principionan di Dios. For di 1986 bin ariba pais Aruba a wordo goberna pa hendenan sin integridad y locual cu nan a haci ta zink pais Aruba den debe. Esaki ta e tempo pa nos gobernantenan cu a masacra nos pais Aruba recoge e fruta amargo cu nan mes a sembra. Dios su tempo ta perfecto.

Esaki ta haci cu partido Curpa ta keda e unico alternativa.

Parlamentario Marco Berlis (MEP):

Prof. mr. Peter Nicolaï di Eerste Kamer di Hulanda; Hulanda ta trata Aruba di un forma inaceptabel!

Slavernij Verleden, Cua Verleden?

Nos por a wak un comunicado di Minister President cu hunto cu Minister Ursell Arends diamars anochi den un conferencia di prensa cu a firma e leningsovereenkomst cu Hulanda na un porcentahe di 6.9% pa 20 aña. E porcentahe aki ta temporal te ora yega na un acuerdo mutuo riba un rijkswet pa asina e porcentahe aki baha. Gobierno ta wak como opcion pa busca un miho tasa di interes riba mercado financiero y asina elimina e presion y abuso di Hulanda colonial. Sigur niun hende ta contento cu e porcentahe aki! Gobierno a lucha cu Hulanda pa un trato husto.

Gobierno a propone varios opcion pa yega na un acuerdo cu Hulanda pero semper Hulanda ta bari tur cos for di mesa. Adicionalmente Fraccion di MEP a manda pregunta pa Tweede Kamer cu nunca a wordo contesta. Adicionalmente Raad van State di Hulanda y Raad van Advies di Aruba den nan conseho na gobierno Hulandes a bisa cu Hulanda ta actuando di un forma incorecto tratando di impone e RAft riba nos pais.

Hulanda ta impone un interes halto basa riba dos mentira politico

Hulanda ta insinua cu mester pone un interes mas halto pasobra tin un riesgo segun Hulanda cu Aruba no por paga bek. Esaki ta completamente falso. Aruba semper a paga su debenan y lo sigui haci esaki.

Tambe, segun Hulanda, nos por cambia supervision financiero ki ora Aruba kier unilateral. Esaki no ta berdad pasobra tin un Protocol den luga desde 2018 firma entre Aruba y Hulanda cu cualkier cambio cu Aruba kier, RMR mester bay di acuerdo cu esaki.

Prof. mr. Peter Nicolaï ta expone mentalidad colonial di gobierno Hulandes

Den su discurso den Eerste Kamer Hulandes Prof. mr. Peter Nicolaï ta cuestiona actuacion y abuso di e gobierno Hulandes contra Aruba riba e asunto di e COVID-lening. Mientras decenas di hende tabata muriendo akin a Aruba door di COVID, Hulanda a traha un plan makabro pa manipula Aruba pa drenta un Rijkswet y asina kita gran parti di nos autonomia.

Den un debate den Eerste Kamer na Hulanda prof. mr. Nicolaï ta bisa lo siguiente:

- "Aruba ta wordo "castiga" cu un tasa di interes dobel, djis pasobra Hulanda ta exigi cu mester bin un Rijkswet pa haya un interes abao."

- "Ruman Grandi Hulanda ta fia placa na paisnan autonomo den Reino y awo ta exigi cambionan di ley djis pa via di e placa aki, cu ta bay contra di Statuto di Reino."
- "Aruba tin supervision financiero hopi bon. Hulanda tin "su dedenan bon hinca den e papa aki." E supervision financiero y normanan ta funcionando hopi bon caba. Si Aruba tin supervision caba, un Protocol cu ta firma cu ta funciona, leynan financiero hinca den otro cu ta haciendo nan trabao, pakico anto gobierno Hulandes ta bisa bo ta haya straf si bo no ta acepta e RAft?"
- "Hulanda a formula den articulo 15 lid 2 como 12 norma den e RAft con e presupuesto di pais Aruba mester ta hinca den otro. Prof. mr. Nicolaï ta continua bisando: mi ta sigur un pais autonomo mane Aruba lo bisa cu "nos tampoco ta bisa Hulanda con su presupuesto mester ta hinca den otro."
- Mi ta haya cu ta for di ordo cu Hulanda ta straf Aruba.
- Art. 43 di Statuto di Reino mester tin un deugdelijkheid van bestuur, y si esaki no ta wordo sigui e ora ey so Hulanda por interveni den Aruba su finansa. Pero si no ta asina, Hulanda mester prueba cu Aruba no tin un "deugdelijk bestuur." Pero Hulanda NO ta haci esaki, pasobra e lo tin hopi problema hunto cu Raad van State pa prueba esaki.

Pa finalisa Prof. mr. Nicolaï a haci Van Huffelen varios pregunta. Notabel tabata con e la puntra e ultimo pregunta na secretario di estado Alexandra van Huffelen; " Con a baha e riesgo pa Hulanda, si Aruba awor ta wordo obliga pa paga un interes redobla pa e lening aki? E mente sano ta bisa cu e ta bira mas dificil pa Aruba. Segun mi e riesgo a subi." Asina nos por compronde cu e mesun senadornan Hulandes ta denuncia e abuso di Hulanda y con nan ta abusando di nan poder contra Aruba! St.Maarten a haya 3.4%, Corsou 5.1% y pakico Aruba ta haya 6.9%? Slavernij verleden? Cua Verleden?

Gobierno ta firma acuerdo di pago cu Hulanda na un interes di 6.9%

Mientras gobierno tin te cu december pa sigui negocia riba alternativa hibrido pa baha e interes mas

Diaranson mainta, den Conferencia di Prensa di Gobierno di Aruba, Prome Minister Evelyn Wever-Croes hunto cu Minister Ursell Arends, a elabora riba e acuerdo cu Gobierno di Aruba a firma cu Hulanda dialuna 10 di October.

Manera conoci, durante e pandemia, Aruba a presta for di Hulanda 916 miyon florin pa cumpli cu diferente obligacion cu nos pueblo. Entre otro, Gobierno a introduci e proyecto di FASE pa yuda esnan cu a perde trabou; a bin cu e proyecto di Loonsubsidie pa yuda e sector priva pa mantene nan trahadonan riba nan payroll. Y asina, Gobierno a introduci varios otro proyecto di sosten cu sigur 1 di cada 2 adulto mester a depende riba esakinan.

Fiansa:
Prome Minister a remarca cu un di e motibonan cu Aruba su recuperacion tawata asina impresionante y asina tempran, segun IMF tambe, ta danki na e hecho cu Gobierno di Aruba a tuma e desicionnan aki hopi tempran durante e pandemia. E fiansa aki tawata necesario pa salba bida di hende y pa recupera nos pais. E fiansa aki, a vence dialuna 10 di October.

Opcionnan cu Hulanda a duna:
Prome Minister a enfatisa cu durante e ultimo lunanan, Gobierno di Aruba a negocia cu Hulanda pa yega na solucionnan pa paga e debe aki. Hulanda a duna Aruba dos opcion. E prome opcion ta pa refinancia e debe aki na interes di mercado. E di dos opcion tawata cu si Aruba kier un interes mas abou, Aruba lo mester cumpli cu condicionnan entre otro pa duna Hulanda un Ley di Reino (Rijkswet) pa entrega nan e supervision financiero di nos pais, e RAFT.

Parlamento no a aproba RAFT:
Parlamento di Aruba, manera conoci, a indica cu no ta sostene e Rijskwet aki, RAFT y a pasa un mocion den Parlamento na unda cu mayoria den Parlamento a aproba pa trek in e RAFT pasobra esaki lo perhudica nos crecemento perhudicando tambe e economia di nos pais.
Esakinan ta tambe e comentarionan cu henter Parlamento a haci despues di a ricibi e ley di RAFT aña pasa, incluyendo esnan cu awo si ta na fabor pa sigui cu e RAFT, esta Fraccionnan di Accion21, MAS y e dos parlamentarionan independiente cu a sali for di Partido AVP. Cu e mocion pasa den Parlamento, no tin RAFT mas riba mesa riba decision y ultimo palabra di Parlamento.

Alternativa hibrido:
Despues, Gobierno di Aruba a sigui negocia y actualmente ta riba mesa e alternativa hibrido. Un aternativa den cua algun aspecto ta wordo regla den e Rijkswet y algun ta wordo regla den e Landsverordening mes y asina purba acomoda ambos banda, Hulanda y Parlamento di Aruba den e descusionnan aki.

Prome Minister a duna di conoce cu pa traha riba e alternativa hibrido ta tuma tempo y Aruba a haya tempo tambe te cu fin di aña 2023 pa Aruba y Hulanda yega na un acuerdo riba nivel di Gobierno. Gobierno den esaki a fiha un meta pa 1 di December yega na un acuerdo pa asina e interes baha mas di loke cu e ta aworaki. Mientras tanto, mester a cera un acuerdo di refinanciamento en bista di e fecha di vencemento stipula di 10 di October.

E acuerdo:
Minsiter di Finansa, Xiomara Maduro a firma e acuerdo di pago aki dialuna 10 di October. Den e acuerdo, Hulanda a ofrece Aruba un fiansa pa 20 aña na un interes di 6.9%. "Gobierno di Aruba no ta di acuerdo cu e interes aki y a purba negocia riba esaki pero Hulanda no a duna oido. Nos a acepta e 6.9% aworaki pa asina nos rescata e reputacion financiero di nos pais y pa no pone Aruba na niun riesgo di bay den default pa niun di e debenan di Aruba. Esaki sigur ta importante pa Gabinete Wever-Croes II", Prome Minister a enfatisa.

Prome Minister a indica cu despues di a firma e acuerdo, Gobierno di Aruba a informa extensamente Parlamento di Aruba, Eerste Kamer y Tweede Kamer di esaki. Proximamente, Gobierno di Aruba lo duna informacion y splicacion na gremionan sindical y comercial y pa contesta cualkier pregunta cu nan por tin al respecto.

Pensa bek riba e labelnan tradicional

Celebra e muhenan fuerte y empoderado

Den e ambito di superacion personal y desaroyo personal, e debatenan riba e personalidadnan “alfa”, “beta” y hasta “sigma” tabata frecuente y hopi biaha a uza pa describi cierto caracteristicanan atribui n’e hendenan homber.

Sinembargo, laga nos tuma un momento pa celebra e hende muhenan fuerte y empoderado y explora con e conceptonan aki por aplica n’e muhenan di un manera empoderado y inclusivo.

MUHE ALFA: UN POTENCIA DI CONFIANSA Y LIDERAZGO

Mescos cu homber alfa, e muhenan alfa ta yena cu confiansa y siguridad. Nan ta lider y figura dominante riba propio derecho. E muhenan alfa no tin miedo di expresa nan opinion, tuma iniciativa den diferente aspecto di bida y inspira esunnan cu ta rond di nan. Nan ta conoci pa nan carisma y nan capacidad pa uni hende.

Aunke por ta nan no ta pas den e forma tradicional di “forsa y curashi,” nan forsa ta biba den nan resistencia, determinacion y capacidad pa provoca cambio den nan comunidad y luga di trabao.

E muhenan alfa ta kibrando tur dak di cristal y transformando mundo y esey ta algo cu tin cu celebra.

MUHE BETA: PODER DI COLABORACION Y COMPASION

E muhenan beta ta aporta un forsa unico. Hopi biaha ta describi nan como esunnan mas pasivo y cooperativo, pero esaki no mester mir’e como un limitacion. Su naturalesa afectuoso y cariñoso ta fomenta colaboracion y unidad. Nan t’e lijm cu ta mantene famia, comunidad y e luganan di trabao uni.

Por ta e muhenan beta no semper ta busca un posicion di liderazgo, pero su impacto ta profundo. Su compasion y empatia ta converti nan den agente poderoso di cambio cu ta traha pa un sociedad mas inclusivo y harmonioso.

Ta esencial reconoce y honra e forsa di e muhenan beta, cu ta destaca den inteligencia emocional y den e construccion di e relacionnan significativo.

MUHENAN SIGMA:
E CAMINDA NO CONVENCIONAL P’E EMPODERAMENTO

Aunke e concepto di e muhe sigma ta discuti cu menos frecuencia, ta crucial reconoce esunnan cu ta sigui e camindanan no convencional p’e empoderamento. E muhenan sigma ta independiente y inconformista y hopi biaha ta marcha riba ritmo di su propio musica. Nan ta duna prioridad na autonomia, libertad y crecemento personal.

Por ta cu e muhenan sigma no ta busca activamente un status social of un liderazgo tradicional, pero nan influencia por haya den e formanan unico y impactante cu nan ta contribui na mundo. Nan ta desafia e normanan y e stereotiponan, animando otro pa brasa nan individualidad y persigui nan pasion.

ACEPTA DIVERSIDAD: E PARADIGMA NOBO

Den e mundo actual, e nocion di personalidad “ideal” ta evolucionando. Celebra y empodera e muhenan ta bay mas leu cu e labelnan predefini. Nos mester reconoce cu tin hende muhe poderoso y inteligente di tur forma. E muhenan fuerte, emocional y inteligente cu ta brasa nan autenticidad ta inegablemente atractivo, no solamente pa nan mes, sino pa esunnan cu tin e privilegio di conoce nan.

Den conclusion, ta ora pa skirbi bek e script y redefini e labelnan di personalidad di e forma cu ta empodera e hende muhenan. E forsa, e liderazgo, e colaboracion y e individualidad ta atributo cu tur muhe por encarna. E caminda pa autonomia ta diverso y unico, mescos cu e muhenan increibel cu ta recore.

Laga nos celebra y apoya e muhenan riba nan caminda, independientemente di e labelnan cu sociedad a asigna na nan y laga nos sigui defende nan forsa, inteligencia y profundidad emocional.

Caminata di Mary Joan Foundation

Pink Hike - Descubri Naturalesa, Descubri bo mes

Luna di October ta e luna na unda comunidad di Aruba tambe ta duna un extra atencion na cancer di pecho. Mary Joan Foundation, celebrando 16 aña di existencia ta recaudando fondo pa por sigui brinda servicio na comunidad di Aruba y su clientenan.

Anualmente durante luna di October, Mary Joan Foundation ta recauda fondo atraves di collect y su conocedo Pink Walk. E aña aki Mary Joan Foundation kier conecta bo cu naturalesa. E conocedo Pink walk ta haya un cambio y lo tin un Pink Hike titula "Descubri Naturalesa, Descubri bo mes". Di e forma aki poniendo atencion no solamente ariba e cancer di pecho pero tambe nos salud mental.

Caminata ta tuma luga dia 29 October, pa 6:30am saliendo di Bushiribana direccion Natural Bridge y termina na e mesun punto di salida. Contribucion ta AWG 15,-. E prome 100 participantenan pa e Pink Hike lo ricibi un goodie bag cu productonan di Martijn Trading- Libresse y Aruba Aloe.

E biaha aki nos lo haci un competencia entre cada participante cu bin cu nan T-shirt, cups of termo miho decora na e thema di nos caminata, logo di Mary Joan Foundation of sinta ros. Ganadonan lo por gana entre otro weekend stays, day pass, dinner for two y mucho mas.

Un peticion ta bay na tur participante pa bin bisti den colornan light y bright por decora boso T-shirt cu luz tambe pa nos por saca un bunita potret di recuerdo mientras nos ta hike.
Na momento cu cumpra 10 ticket of mas, nos lo por entrega e ticketnan pa boso.

Nos ta encurasha tur participante pa yega tempran ya caba for di 6or di mainta pa stretch pa por duna inicio pa 6.30am na e pink hike. Na final di e hike lo por disfruta di un Dushi coffee di Nescafe, yoghurt di Elle & Vire, Spa water y algun sorpresa mas.

Un danki na tur e sponsor nan cu ta haci e pink hike aki un realidad.
Un yamada ta bay na tur comerciante cu ta desea di pone un collect box den nan negoshi pa tuma contacto cu nos. Mary Joan Foundation ta desea di por colecta 60 mil florin pa asina cubri gastonan di e fundacion. Durante aña fundacion tur luna ta haci actividadnan pa e clientenan, duna sosten di tratamento di psicologo y tambe e proyecto Un peluca un sonrisa. E aña aki nos tin na benta sinta ros pa AWG 3,- y nos Pin di fundacion pa AWG 7,50.

Ticket pa e Pink Hike ta obtenibel na Mary Joan Foundation, Caya Appeldam #2 Dakota na Atha Building. Por whatsapp na 594-0919 y sigui nos ariba Facebook Mary Joan Foundation.

Colaboracion entre AVC, Mary Joan Foundation y Stichting BOB

Diabierna ultimo Aruba Vision Center a lansa nan campaña nobo conhuntamente cu Stichting BOB y Mary Joan Foundation. Esaki a ser presenta durante e programa Nos Mainta na Tele Aruba. E ambiente tabata uno ameno cu bishita di varios cliente fiel di Aruba Vision Center.

A presenta e bunita tumbler como simbolo di colaboracion entre e dos fundacion nan aki cu e compania en cuestion. E idea ta pa e fundacion por genera fondo por medio di benta di e tumbler nan aki na siguido nan y miembro nan di Mary Joan Foundation y Stichting BOB.

Ademas di e presentacion di e tumbler aki tambe a presenta coleccion nan nobo inspira riba e luna importante di conscientisacion di cancer di pecho. A pone enfasis manera semper riba e importancia tambe di chekeo di wowo frecuente pa preveni problema nan di salud, ademas esaki ta completamente gratis na Aruba Vision Center.

Aruba Vision Center naturalmente ta invita Aruba completo pa por contribui na e dos fundacion nan aki por medio di compra di e bunita tumbler aki como un recuerdo di conscientisacion di cancer di pecho.

AHATA a bishita SPO Santa Cruz pa demostra aprecio y inspira studiantenan

Aruba Hotel & Tourism Association (AHATA) a demostra aprecio y inspira orguyo pa e hobennan studiando na Scol Practico pa Ofishi (SPO) Santa Cruz. Presidente y CEO di AHATA, Sra. Tisa LaSorte a haci e bishita pa combersa cu studiantenan, contesta pregunta y regala T-shirts di e campaña “Ami Ta Turismo”.

Durante e bishita 38 studiante di ultimo aña, den diferente area di servicio como cushina, comercio y hardineria a siña mas tocante di nos industria turistico. AHATA a regala e t-shirts di “Ami Ta Turismo” den presencia di alumnonan y Management di SPO Santa Cruz representa pa Janine Wardlaw-Thiel, na e hobennan cu lo bira e siguiente generacion di profesionalnan den nos industria turistico. E intencion di e campaña ta pa inspira orguyo pa escogencia di hospitalidad como carera.

E bishita y regalo ta un indicacion di AHATA su compromiso pa crea mas conscientisacion den nos comunidad, specialmente hobennan. Pa asina ta bon informa di e diferente oportunidadnan cu tin den nos sector turistico pa un bon carera y calidad di bida. E asociacion ta spera cu e bishita aki lo sirbi como un recordatorio di e rol importante cada un di e studiantenan tin den sostene nos isla su economia y inspira nan pa sigui nan estudio y un carera valioso den turismo.

Sigurdad 5G:

Consenso actual y supervision continuo

Mientras cu mundo ta continua cu su implementacion di tecnologia 5G, e preguntanan riba su sigurdad ta persisti. Ta esencial aclaria cu, for di e ultimo informacion disponibel, no ta considera 5G peligroso pa salud humano ora cu ta opera dentro di e normanan di sigurdad estableci.

NIVEL DI RADIACION Y REGULACION

E rednan 5G, mescos cu su predecesornan, ta uza radiacion di radiofrecuencia (RF) pa transmiti dato di forma wireless. E emisionnan aki di RF ta controla y regula p'e normanan di sigurdad cu ta establece limite estricto n'e nivelnan di radiacion. E limitenan aki ta diseña pa garantisa cu e exposicion na radiacion di RF di e tecnologia 5G ta mantene hopi abao di e nivelnan di sigurdad estableci.

ESTUDIO CIENTIFICO Y CONSENSO

A lo largo di e añanan, diferente estudio cientifico a analisa e posibel efectonan riba salud di e radiacion di radiofrecuencia, incluyendo esun produci p'e tecnologia 5G. Te cu e fecha, e consenso entre e principal organisacionnan di salud, incluyendo e Organisacion Mundial di Salud (WHO) y e Administracion di Alimento y Medicamento di Merca (FDA), ta cu no tin prueba concluyente cu ta relaciona radiacion di RF 5G cu resultado adverso pa salud, manera cancer of otro enfermedad.

REGULACION Y CUMPLIMENTO ESTRICTO

E gobierno y organismonan regulador di henter mundo a establece regla estricto y limite di sigurdad p'e exposicion na RF. E empresanan di telecomunicacion cu ta maneha e infrastructuranan 5G ta legalmente obliga na cumpli cu e normanan aki, garantisando pa duna prioridad n'e sigurdad publico.

VIGILANCIA Y INVESTIGACION CONTINUO

E agencianan di salud ta mantene vigilante den e supervision y evaluacion di sigurdad di e tecnologianan wireless, incluyendo 5G. Esaki ta implica investigacion y evaluacion di riesgo continuo pa garantisa cu ta evalua cu precision cualkier prueba cu ta bin relaciona na posibel riesgo pa salud. Den e probabel caso cu bin informacion nobo cu ta sugeri posibel problema di salud, consecuentemente lo ahusta e normanan di sigurdad.

COMPRONDE TECNOLOGIA 5G

Pa aborda e preocupacionnan, ta esencial compronde cu e tecnologia 5G ta uza radiowaves di mayor frecuencia cu e generacionnan wireless anterior. Sinemargo e wavesnan aki tin un capacidad di penetracion limita y ta absorbi principalmente p'e cuero. Fuera di esey, e nivelnan di potencia di e transmisornan 5G ta generalmente abao, loke ta reduci e daño potencial.

Concluyendo, aunke ta sigui circula pregunta riba e sigurdad di 5G, e consenso actual entre e organismonan cientifico y regulador ta mantene firme: e tecnologia 5G no ta esencialmente peligroso ora cu ta maneh'e dentro di e parametronan di sigurdad estableci. Mientras cu tecnologia ta avansa, ta crucial pa keda informa riba e ultimo investigacion y normanan di sigurdad y consulta cu e profesionalnan di salud of autoridad regulardor, pa por proporciona e informacion mas actualisa y precies pa esunnan cu tin cierto preocupacionnan.

Celebracion di siman internacional di Housekeeping na Hilton Aruba Resort & Casino

Na Hilton Aruba Caribbean Resort & Casino, un estadia bunita ta cuminsa cu espacionan fresco y confortabel, bao e estimado guia di e resort su departamento di Housekeeping. E team dedica aki ta traha incansablemente pa percura cu cada dia ta yena cu entusiasmo y bon ambiente, sigurando cu e bishitante su experiencia ta consistentemente excepcional.

Cada aña durante e siman di celebracion aki, un programa detaya di actividad, interno manera tambe externo, ta keda compila cu e meta pa mustra aprecio na e contribucion di e departamento resultando den operacion suave di e hotel.

E actividadnan ta diseña pa entretene, premia y reconoce e empleadonan di housekeeping pa nan tremendo trabao, incluyendo toke diario di aprecio cuminsando na dialuna cu un desayuno mainta trempan, culminando cu un happy hour di tres ora riba diabierna den un Bus Party. Durante e siman e empleadonan a disfruta di cupcakes, bingo, pizza y ice cream, den gratitud pa standard halto di limpiesa y mantencion cual nan semper sa di sobresali, den mantencion di e cambernan y espacionan publico.

International Housekeeping Week, IEHA, ta wordo celebra mundialmente desde 1981, butando un siman na banda pa enfoca tur atencion y reconocemento na e profesionalnan aki di mantencion cu ta traha den hotels, resorts y otro facilidadnan publico, manteniendo un ambiente as limpi, safe y saludabel pa un y tur, dia aden y dia afo. Danki pa boso trabao y compromiso, Bibi Rampersuad, Director di Housekeeping ta expresa, y un danki pa yuda haci e estadianan na e resort mas memorabel tambe ainda pa e bishitantenan.

International Housekeepers Week recientemente a keda bautisa pa International Housekeepers & Environmental Services Week, reconociendo e esfuersonan di miembronan di staff diligente y generalmente custodial.

Caribbean Arthritis Foundation ta observa dia internacional di artritis

Awe, 12 di october ta dia Internacional di Artritis y anualmente Caribbean Arthritis Foundation ta tuma e oportunidad pa refleha y observa e dia aki. Desde 2022 e fundacion ta organisa actividad pa su pashentnan pero tambe congresonan medico acredita pa e veld di cuido, muy en particular pa e dokternan di cas. Tur esaki ta sosode pa contribui na un miho calidad di bida pa esnan cu ta sufri di un di e formanan di artritis den cuadra di e campana “early diagnosis and treatment”.

Actualmente tin mas cu 2mil persona cu a wordo diagnostica cu un di forma di artritis y cu ta bou tratamento di e dos reumatologo cu Aruba conoce. Pero tambe ta un echo cu tin hopi persona cu no a ser diagnostica ainda. Y akinan e veld di cuido ta hunga un rol importante. Echo ta cu artritis ta un condicion cu ta causa daño irreversibel na e jointnan, cu tur sorto di consecuencia pa un persona. Durante 2023 e fundacion a organisa varios actividad di pashent pa asina continuamente tene su pashentnan bon informa riba e ultimo desaroyo nan, pero tambe pa duna un empuhe moral pa asina por maneha un balansa mas optimal cu ta posibel.

Na mei ultimo Aruba un bes mas por a ricibi Prof. dr. Mart van de Laar, un reumatologo cu a educa varios reumatologo durante su carera, cu a duna un sesion acredita pa e veld di cuido cu bishitantenan di e veld di cuido di Curacao, pero tambe un presentacion interesante pa e pashentnan. Mientras tanto e fundacion a finalisa su plan strategico pa 2024 te cu 2026 pa asina logra su metanan. E organisacion ta completamente wordo sosteni financieramente pa e Nationale Vereniging Reuma Zorg Nederland y Stichting Reumazorg Nederland.

Minister Geoffrey Wever:

IMF ta positivo riba crecemento di economia di Aruba

Segun International Monetary Fund (IMF) economia di Aruba den 2023 ta premira e Producto Interno Bruto (PIB), e indicador cu ta refleha e balor di tur producto y servicio produci di un economia, pa crece cu 8,0 porciento (+8.0%) den termino nominal. Cu un balor di 6.8 miljard Florin, esaki ta igual na 113 porciento (113%) di e nivel na 2019 (6.1 miljard Florin). Pa loke ta trata inflacion, IMF ta premira cu inflacion den 2023 lo yega 4.5 porciento (4.5%).

E crecemento di economia di Aruba lo sigui tambe den 2024. IMF ta premira un crecemento di 3,4 porciento (+3.4%) den termino nominal di e Producto Interno Bruto cu un balor di 7.0 miljard Florin. Esaki ta igual na 117 porciento (117%) di e nivel na 2019. IMF ta premira un inflacion di 2,3 porciento (+2.3%) den 2024.

E Producto Interno Bruto (PIB) den termino real, esaki ta balor di tur producto y servicio produci di un economia ahusta pa inflacion tambe ta mustra un desaroyo positivo. Den termino real, IMF ta premira cu e Producto Interno Bruto den 2023 lo crece cu 2,3 porciento (+2.3%) y den 2024 cu 1.2 porciento (+1.2%).
E World Economic Outlook October 2023 di IMF ta indica cu economia di Aruba ta den e bon direccion, un desaroyo positivo cu ta demostra cu e economia a supera e impacto economico di e pandemia. “E crecemento di economia di Aruba den 2023 y 2024 premira pa International Monetary Fund ta duna mas confianza pa sigui inverti den desaroyo di nos pais”, segun minister Geoffrey Wever.

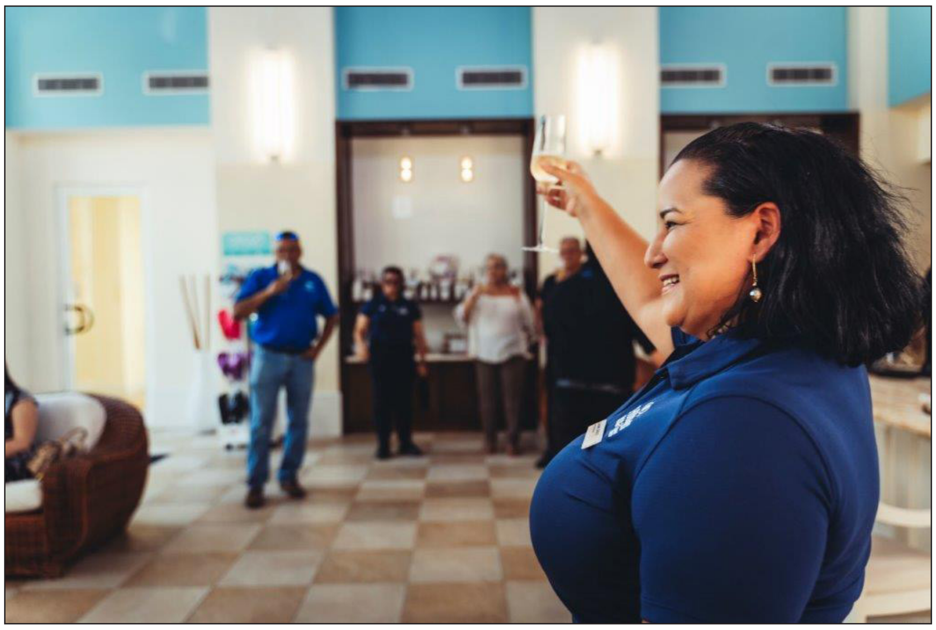

Prensa Local a keda invita pa relaha na Eforea Spa

Eforea Spa na Hilton Aruba Caribbean Resort & Casino a organisa un evento di prensa exclusivo pa gradici miembronan di prensa local pa nan trabao duro y dedicacion. Miembronan di prensa a haya un bon bini na yegada di area di recepcion di spa cu un serbete di cara hunto cu un Aqua Aloe cocktail refrescante.

Esaki a keda sigui pa algun momento di network y combersacion cu Spa Manager Lisa Dammerman, Food & Beverage Director JC LeVarrat, y Marketing Manager Joanne Dirksz. Joanne a gradici miembronan di prensa pa nan colaboracion largo cu e resort y sosten na su strategia di PR y mercadeo. Despues nan a wordo hiba na cambernan di tratamento individual caminda nan a disfruta di un ritual di hand cleansing sigui pa un full body massage. E full body massage tradicional ta alivia dolor muscular, combina cu Aruba su Aloe Vera local, un tratamento perfecto pa alivia cansancio.

E localidad popular dilanti di lama na Palm Beach cu dies camber di tratamento, un outdoor cabana, sauna, steam room, cold plunge pool hunto cu locker rooms priva, totalmente diseña pa deleita y relaha bishitantenan cu ta constantemente ocupa.

Mientras nan tratamento a conclui, miembronan di prensa a congrega cu cocktails & hors d'oeuvres den e pavillion di relahacion cu un bunita hardin cu piedra preto di lama, akinan nan a combersa den bon ambiente cu Marketing Manager Joanne Dirksz. Miembronan di prensa tambe a keda invita pa join e Retrograde Ritual na eforea beach durante bahada di solo, pa sigui na alivia nan y yuda nan eleva nan spirito net prome cu fin di siman.

The Hilton Aruba Caribbean Resort & Casino semper a mantene lasonan estrecho cu media local, stimulando semper comunicacion interactivo y transparente for di ambos banda.

Pastoral Hubenil Aruba cu fiesta na honor di Beato Carlo Acutis

Ken tabata Carlo Acutis?

Carlo a nace 3 di mei 1991 na London Inglatera, caminda su mayornan, Andrea Acutis y Antonia Salzano, tabata traha. Algun siman despues famia Acutis a muda pa Milan, Italia.

Carlo a wordo diagnostica cu lleucemia ora e tabata adolescente y el a dicidi di ofrece su sufrimentonan "na Señor, Papa y Iglesia". El a fayece 12 di october 2006, dia di Birgen di Pilar. El a pidi pa wordo dera na Asis, debi na e gran amor cu e tabata tin pa San Francisco di Asis. E causa pa su beatificacion y canonisacion a habri na 2013. A declar'e venerable na 2018 y su beatificacion a sigui dia 10 di october 2020.

E beato tabata aficiona na weganan di video y programacion di computer. E tabata stima futbol y eucarestia, cual a genera hopi interes den henter mundo.

Tabata tin un triduo na su honor dianan 9, 10 y 11 di october na Parokia Santa Filomena na Paradera y awe dia 12 di october ta celebra su fiesta. Un y tur, specialmente hobennan ta keda cordialmente invita pa e santa misa 7'or di anochi na Paradera, na honor di Beato Carlo Acutis, patrono di tur hoben.

Pan de plátano y coco fácil y saludable

Los plátanos son ricos en nutrientes que promueven el sueño, como triptófano, magnesio, vitamina B6 y potasio, todos los cuales pueden mejorar la calidad de tu sueño. Disfruta del sabor del plátano y el coco en un delicioso pan tostado o solo.

Receta
TIEMPO PREVIO:15 minutos
HORA DE COCINAR:45 minutos
TIEMPO TOTAL:1 hora
10SERVICIO

Ingredientes:
6 c/u. Plátanos
4 cucharadas Aceite de girasol u otro aceite ligero
4 cucharadas Miel de maple
2,5 tazas de harina integral (o harina integral de repostería)
1 taza de coco rallado
2 cucharaditas Levadura en polvo
1 cucharadita Bicarbonato
2 cucharadas Coco rallado para cubrir

Direcciones:

1 - Precaliente el horno a 330 °F/135 °C y engrase un molde para pan de 12×5 pulgadas.

2 - En un tazón grande, triture los plátanos con un tenedor.

3 - Agregue el aceite, el jarabe de arce, el coco, la harina, el bicarbonato de sodio y el polvo para hornear y mezcle con un tenedor hasta que se combinen. No mezcle demasiado, se verá un poco grumoso y eso está bien.

4 - Vierta la masa en su molde para pan engrasado. Para obtener un resultado más pegajoso, hornee durante 40 a 45 minutos, o hasta que al insertar un palillo en el centro, éste salga limpio. (NOTA: Puede dejarlo en el horno durante 50 a 55 minutos si prefiere un resultado más seco).

5 - Deje que el pan se enfríe en el molde para pan durante al menos 10 minutos. Es posible que tengas que pasar un cuchillo de mantequilla por los bordes para soltar el pan del molde. Transfiera con cuidado el pan a una rejilla para que se enfríe antes de cortarlo. ¡Disfrutar!

Fortaleza pa Famia

Nos recursonan spiritual den Cristo Hesus ta poderoso

LOCUAL ta imposibel pa hende ta posibel pa Dios, locual ciencia y tecnologia no por comprende, ta solamente Dios tin solucion pe. Nos mester reconoce cu Dios a traha tur cos, y cu Dios por tur cos, y cu Dios ta haci tur cos bira posibel.

No ta awe ta existi hende incredulo, of miho bisa hende cu no ta kere den Dios, semper nan tabata existi, y pero tur momento nos por a ripara con nan a keda boca habri ora poder di Dios manifesta.

Nos ta bibando den un tempo caminda hende ta reta Dios, haci cherche di Dios, y mas cu tur cos rebeldia contra Dios.

Pero Dios den su misericordia, keto bay ta sigui sana, sigui libera, sigui bendiciona, pasobra e ta Dios, Soberano y Todopoderoso.

Dios ta bon, pasobra bondad ta biba den Su curason, Su naturalesa ta di bondad, Su misericordia y Su compasion ta vence tur cos.

Semper ora nos bini dilanti di Dios, den oracion, nos por tin e confiansa, cu Dios ta scucha y contesta nos oracion, no ta importa con dificil e situacion por ta.

Awe maske bo ta para bo so, y tur otro hende, no ta kere, sabi cu bo fe den Dios, lo pone milager sosode pa asina tur hende den bo cas lo alaba y gradici Dios.

E nivel di materialismo a subi asina tanto, cu hende ta limita Dios, pasobra nan ta kere mucho mas den nan mes forsa cu nan ta kere den Dios.

Nunca nos por pone un banda nos oracion, nos ayuno, nos alabansa y semper corda pordona (Marco 11:25), semper nos mester traha tempo pa Dios, esey ta e recursonan spiritual cu Dios a duna nos pa nos por acerca Dios tur momento.

E poder di oracion ta surpasa tur cos basta nos tene na cuenta lo siguiente:
Nos Dios ta riba tur cos.
Nos ta sirbido berdadero di Dios. Ningun hende no por sirbi dos Dios.
Dios ta scucha y ta contesta oracion.
Esun cu pone su confiansa den Dios nunca lo pasa

berguensa.

E boluntad di Dios semper mester ta na prome luga, pasobra asina nos desvia for di esey nos lo ta pa nos propio cuenta, nos no por negocia cu e boluntad di Dios, nos mester simplemente obedece e boluntad di Dios, e boluntad di Dios mester ta semper na prome luga den nos bida.

Ta p'esey Hesus a siña nos haci oracion den Mateo 6:10 bisando: Cu Bo reino bini y cu Bo boluntad sosode na tera mescos cu na cielo.
Laga nos no lubida cu ta para skirbi den Lucas 1:37: Pasobra pa Dios lo no ta imposibel.
Daniel a vence cueba di Leon pa medio di oracion (Daniel 6:21-23).
Elias a baha candela for di cielo pa medio di oracion (1 Reynan 18:36-38).
Rey Ezequias (Isaias 37:36-38) a gana guera pa medio di oracion.
Pedro a lanta Dorcas for di morto pa medio di oracion (Hechonan 9:40).

Hesus tabata haci oracion constantemente, y milagernan a sosode.
Hesus a bisa Martha, si bo kere lo bo mira e Gloria di Dios y Hesus a lanta Lazaro for di morto.

Tur cos ta posibel ora nos ta kere, pasobra Cristo Hesus a bisa e señalnan aki lo sigui esnan cu ta kere, pasobra ora nos kere, nos ta demostra fe y confiansa den Esun cu por yuda nos.

Den Isaias 26:3 ta para skirbi : Lo Bo warda den pas perfecto, esun cu su pensamento ta permanece den Bo, pasobra e ta confia den Bo.

Sinceramente, Pastor Marcel Balootje

Partido MEP ta duna homenahe na señor Harry Croes

Un Baluarte hopi stima pa nos Partido y pa pueblo di Aruba

DIAMARS mainta a drenta e tristo noticia cu un Baluarte di nos partido como tambe di nos pais a bay sosega na edad di 74 aña, señor Harry Croes. Harry Croes ta un persona hopi conoci y stima pa e comunidad di Aruba.

Diamars anochi, Lider di MEP, Evelyn Wever-Croes acompaña pa algun candidato y sostenedonan di nos Partido, a reuni na Cede di MEP pa un momento solemne pa recorda e gran personahe Harry Croes. Den su palabranan cu yen di emocion, Lider di MEP a conta den corto e legado cu señor Harry a laga pa nos Partido y pa pueblo di Aruba.

E partida di Harry tawata un shock pa nos tur. Un noticia hopi tristo pa nos Partido. Harry semper tawata cla pa yuda Partido MEP. El a yuda tur Lider di Partido MEP. Pa nos Partido, Harry ta un Baluarte. El a dedica su bida na nos Partido. El a pasa hopi tempo di su bida na Cede di MEP, sea ta pa atende miles di reunion durante trayectoria di Partido, pa campañanan electoral, pa selecciona candidatonan nobo, pero tambe simplemente pa hunga domino cu compañeronan di lucha y amigonan di bario di Santa Cruz.

Harry Croes a biba e momento di Augustus scur y el a conta e storia aki miles di biaha pa asina e keda bibo den memoria y historia di nos pais.

Pa Aruba tambe Harry ta un Baluarte, den cultura y den deporte. E motor tras di Festival di Dande. Harry Croes tawata hopi stima no solamente den e bario di Santa Cruz pero pa henter Aruba.

Partido MEP a considera oportuno pa bin hunto e anochi aki y duna un homenahe na Harry na e luga na unda cu tur aña, 17 di maart y algun minuut prome cu 12or, prepara e bandera pa asina net 12or di 18 di maart, hisa e bandera di Aruba di mas grandi na Aruba, cu tambe tawata un iniciativa di Harry.

Esaki ta un tradicion di Partido MEP riba Dia di Himno y Bandera cu cada aña ta bira mas emotivo ora cu pa 12or di anochi habri nos dia nacional y wak e bandera di mas grandi di nos dushi Aruba wordo hisa y bula na laira, cu e mesun emocion di e deseo cu Harry tawata tin den su curason, pa cada un di nos stima nos pais y pa ta orguyoso di nos pais y di e simbolonan di identidad y libertad di nos pais.

Nos lo sigui recorda Harry. Nos ta gradici Harry inmensamente hopi pa tur loke el a haci pa nos Partido. Lider di MEP, den nomber di Partido MEP ta desea señora Ligia, yiunan, demas famia, e famia di MEP y tur cu a conoce Harry Croes, hopi forsa y cu señor Harry Croes sosega na paz.

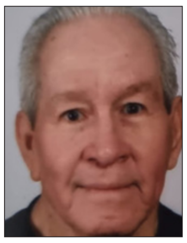

Laga tur loke ta spera mi ta bunita
Laga tur locual cu mi encontra na caminda ta bunita
Laga tur locual cu mi laga atras keda bunita y
Laga esakinan termina den tur buniteza.
Cado Wever.

Nos ta anuncia fayecimento di:

Sr. Harry Croes

Acto di entiero lo wordo anuncia despues.

"Señor ta mi wardador, mi'n tin falta di nada
Den cunucu di yerba berde e ta ponemi sosega.
E ta hibami na awa trankil,
Pa mi bolbe haña forsa". Salmo: 23

IMPORTATION IN 2023 HIGHER COMPARED TO 2022

Minister Geoffrey Wever:

Importation in 2023 Higher Compared to 2022

ON September 29th, an article was published in the media titled “Imports in the month of August decreased by 34 million.” Upon analyzing the statistics published by the Central Bureau of Statistics (CBS) until the end of August 2023, they show that the total value of imported products reached a sum of AWG 1.8 billion. Out of this amount, AWG 1.71 billion is allocated for local production and consumption, and AWG 90 million goes through the Freezone for export. The total weight until the end of August 2023 reached a sum of 467 million kilograms, of which 460 million kilograms are imported for local production and consumption, and 7 million kilograms through the Freezone for export.

Aruba, as a small economy, imports most of the products that each of us purchases in supermarkets or stores. These products include everyday items like food, beverages, and construction materials. These products arrive in Aruba via ships or planes from different countries and are intended for local production and consumption or the Freezone. All products are categorized into sections, such as food products, among others.

When making a comparison between August 2023 and August 2022, the data indicates that in August 2023, there was an import decrease of 34 million florins compared to August 2022. The analysis shows that in August 2023, there was a 15 million florin decrease in Petrochemical products, 14 million less in Meat, Fish, and Seafood, Dairy Products intended for local production and consumption, and a 5 million florin decrease in Food Products through the Freezone.

Regarding August 2023 compared to July 2023, the data reveals a 3.6 million florin decrease in imports but an increase of 33 million kilograms in weight. Out of the 96 different product sections, from meat to cement, 52 sections show a decrease of 33.3 million florins and 11.2 million kilograms, while 44 sections indicate an increase of 26.7 million florins and 45 million kilograms intended for local production and consumption.

Public information from the Central Bureau of Statistics indicates a rise in value and weight until the end of August 2023 compared to 2022. In 2022 until the end of August, the import value was 1.6 billion florins with a weight of 433 million kilograms. This means that until the end of August 2023, the total import value increased by 180 million florins, or 11% compared to the end of August 2022. As for the weight, until the end of August 2023, the total weight increased by 34 million kilograms or 8% compared to the end of August 2022.

The data from CBS shows that until the end of August 2023, there is more importation both in value and weight compared to 2022. This indicates that even though we import more, we are also paying more for the imported products, and international price levels remain relatively high.

The Ministry of Economic Affairs, Communication, and Sustainable Development continuously monitors the development of imports and exports of products and their impact on Aruba’s economy.

Minister Geoffrey Wever expresses gratitude to CBS for their daily work and the publication of data that is of great importance to our economy.

Mary Joan Foundation's Pink Hike

Discover Nature, Discover Yourself

OCTOBER is the month when the Aruban community focuses on breast cancer awareness. Celebrating its 16th year of existence, the Mary Joan Foundation is raising funds to continue providing services to the Aruban community and its clients.

Every year, during the month of October, Mary Joan Foundation raises funds through collections and its well-known Pink Walk. This year, the foundation aims to connect you with nature. The traditional Pink Walk is undergoing a transformation and will become a Pink Hike with the theme "Discover Nature, Discover Yourself." This shift of focus not only raises awareness about breast cancer but also emphasizes mental health.

The hike will take place on October 29th, starting at 6:30 AM from Bushiribana, heading towards the Natural Bridge, and ending at the same starting point. The contribution is AWG 15. The first 100 Pink Hike participants will receive a goodie bag with products from Martijn Trading - Libresse and Aruba Aloe.

This year, there will be a competition among participants who come dressed in their Pink Hike T-shirts, cups, or thermoses beautifully decorated according to the hike's theme, Mary Joan Foundation's logo, or seated roses. Winners will have the chance to win prizes such as weekend stays, day passes, dinner for two, and much more.

Participants are encouraged to wear light and bright colors and decorate their T-shirts with lights for a memorable photo opportunity during the hike.
For those purchasing 10 tickets or more, the tickets will be delivered to you.
Participants are urged to arrive early, before 6 AM, to stretch and prepare for the Pink Hike, which begins at 6:30 AM. At the end of the hike, you can enjoy a delicious Nescafe coffee, Elle & Vire yogurt, Spa water, and more surprises.

A heartfelt thank you to all the sponsors who have made this Pink Hike possible. A special request goes out to all business owners who wish to place a collection box in their stores to get in touch with us.

Mary Joan Foundation aims to collect 60,000 florins to cover the foundation's expenses. Throughout the year, the foundation hosts activities for its clients, provides support for psychologist treatments, and runs the "One Wig, One Smile" project. This year, we have pink ribbons for sale at AWG 3 each and foundation pins for AWG 7.50.
Tickets for the Pink Hike are available at the Mary Joan Foundation, Caya Appeldam #2, Dakota, at the Atha Building. You can also contact us via WhatsApp at 594-0919 and follow us on Facebook at Mary Joan Foundation.

While the government has until December to continue negotiating an alternative hybrid to lower the interest rate further

The Government signs an agreement with the Netherlands at an interest rate of 6.9%

IN the Government of Aruba Press Conference on Wednesday, Prime Minister Evelyn Wever-Croes, together with Minister Ursell Arends, elaborated on the agreement that the Government of Aruba signed with the Netherlands. As known, during the pandemic, Aruba borrowed 916 million florins from the Netherlands to meet various obligations to our people.

Among other things, the government introduced the FASE project to assist those who lost their jobs; it introduced the Wage Subsidy project to help the private sector retain their employees on the payroll. In this way, the government introduced several other support projects that almost 1 in every 2 adults had to rely on.

Financing:

The Prime Minister emphasized that one of the reasons for Aruba's impressive and early recovery, as also recognized by the IMF, is thanks to the fact that the Government of Aruba made these decisions very early during the pandemic. This financing was necessary to save lives and recover our country. This financing matured on Monday, October 10.

Options Given by the Netherlands:

The Prime Minister stressed that over the past few months, the Government of Aruba has negotiated with the Netherlands to find solutions to pay this debt. The Netherlands gave Aruba two options. The first option is to refinance this debt at market interest rates. The second option was that if Aruba wants a lower interest rate, Aruba will have to meet certain conditions, including giving the Netherlands a Kingdom Law (Rijkswet) to provide them with financial supervision of our country, the RAFT.

Parliament Did Not Approve RAFT:

As known, the Parliament of Aruba indicated that they do not support this Kingdom Law, RAFT, and passed a motion in Parliament where a majority in Parliament approved pulling the RAFT, as this would harm our growth and also harm the economy of our country. These are also the comments made by the entire Parliament after receiving the RAFT law last year, including those who are now in favor of continuing with the RAFT, namely the Action21, MAS factions, and the two independent parliamentarians who left the AVP Party. With the passing of the motion in Parliament, there is no longer RAFT on the table for a decision and the final word of Parliament.

Hybrid Alternative:

Subsequently, the Government of Aruba continued negotiations, and currently, the hybrid alternative is on the table. An alternative in which some aspects are regulated in the Kingdom Law and some in the national ordinance itself, trying to accommodate both the Netherlands and the Parliament of Aruba in these discussions.

The Prime Minister announced that working on the hybrid alternative takes time, and Aruba has time until the end of 2023 for Aruba and the Netherlands to reach an agreement at the Government level. The Government set a goal to reach an agreement by December 1 to lower the interest rate further than it is now. In the meantime, a refinancing agreement had to be closed in view of the maturity date set for October 10.

The Agreement:

Minister of Finance, Xiomara Maduro, signed this payment agreement on Monday, October 10. In this agreement, the Netherlands offered Aruba a 20-year loan at an interest rate of 6.9%. "The Government of Aruba does not agree with this interest rate and has tried to negotiate it, but the Netherlands did not listen. We accepted the 6.9% now to rescue the financial reputation of our country and to avoid putting Aruba at any risk of going into default on any of Aruba's debts. This is certainly important for the Wever-Croes II Cabinet," the Prime Minister emphasized.

The Prime Minister indicated that after signing the agreement, the Government of Aruba extensively informed the Parliament of Aruba, the First Chamber, and the Second Chamber. Soon, the Government of Aruba will provide information and explanation to union and commercial bodies and answer any questions they may have about this.

Digicel has launched the 'Biba Miho cu Digicel' campaign

ARUBA'S media team was invited to experience a celebratory moment with Digicel's team, where they launched the 'Biba Miho cu Digicel' campaign among fellow media colleagues and the local customer team that was part of this launch.
During the event, the details of the 'Biba Miho cu Digicel' campaign were shared with the social media, radio, and television media teams, aiming to communicate the fantastic offers and surprises that will be available during this period to their followers, listeners, and viewers. The presentation highlighted the high ratings that Aruba receives from Coyne research and the tremendous benefits that any Digicel customer enjoys, including features like Unlimited Data and 24/7 customer service through the MyDigicel app.

It was a moment of celebration, with the results, for the third time in a row, confirming that Digicel provides the best service and the fastest connection in Aruba. The current plans that Digicel offers are favorably received by 79% of customers, and 9 out of 10 customers report being "satisfied" or "very satisfied" with Digicel.

The "Biba Miho cu Digicel" campaign is based on an annual survey conducted in all 27 Digicel markets. For Aruba, these results have been excellent for the past three years, with 9 out of 10 customers recommending Digicel to their friends and family. The survey measures customer satisfaction, brand value perception, and overall sentiment among both Digicel users and non-users.

Digicel wants to thank all its customers and the people of Aruba for participating in this survey.

Aruba's Tourism Industry Sets the Gold Standard for Sustainable Hospitality

IN the heart of the Caribbean, the picturesque island nation of Aruba is redefining the standards of responsible and sustainable tourism. As a cornerstone of Aruba's economy, the tourism sector has emerged as a shining example of eco-conscious and sustainable practices. Hotels and resorts across the island have made commendable strides in embracing green technologies, from solar panels to water-saving measures, underlining Aruba's unwavering dedication to offering responsible and sustainable hospitality.

An Island Paradise on a Green Journey

Nestled in the azure waters of the Caribbean, Aruba is known for its breathtaking beaches and a vibrant tourism industry. However, it is the island's commitment to sustainability that is rapidly becoming a defining feature of its tourism landscape. As the world grapples with climate change and environmental degradation, Aruba's tourism sector stands out as a model of responsible and mindful development.

Embracing Eco-Friendly Technologies

Hotels and resorts on the island have spearheaded a movement towards adopting cutting-edge eco-friendly technologies. One of the most striking examples of this is the widespread use of solar panels. Aruba's abundant sunshine is harnessed to power establishments, significantly reducing their carbon footprint and reliance on traditional energy sources.

Water-Saving Measures

In addition to harnessing solar energy, Aruba's hospitality sector has placed great emphasis on responsible water consumption. Water-saving measures, such as the installation of low-flow fixtures and rainwater harvesting systems, have become a standard practice in hotels and resorts. These efforts not only contribute to water conservation but also result in substantial cost savings for these establishments.

Guests Are Welcomed to a Greener Future

For the discerning travelers who choose Aruba as their destination, the commitment to sustainability is a notable feature of their stay. Guests can experience the comfort of knowing that their accommodations are part of a broader eco-friendly initiative. Aruba's hotels and resorts are committed to offering unforgettable experiences without compromising on environmental responsibility.

Preserving Paradise for Generations to Come

As Aruba continues to champion sustainability in its tourism industry, the island sends a powerful message to the world. It demonstrates that economic prosperity and ecological preservation can go hand in hand. Aruba's path towards sustainable tourism is guided by the vision of preserving the island's natural beauty for future generations and ensuring that its visitors can enjoy the wonders of the Caribbean in an eco-conscious manner.

Aruba's tourism industry serves as an inspiration for other destinations, illustrating that through innovation and dedication, it is possible to deliver world-class hospitality while respecting the environment. As other regions look for ways to balance economic growth with ecological preservation, Aruba stands as a shining example of what can be achieved when sustainability takes center stage in the world of travel and hospitality.

Israel-Hamas Conflict Escalates:

Devastation and Humanitarian Crisis in Gaza

IN the ongoing Israel-Hamas conflict, which entered its fifth day, the scale of destruction and the looming humanitarian crisis in Gaza have emerged as major concerns. This report provides an overview of the latest developments.

Casualties Mounting:

As of the latest figures, the conflict has claimed over 1,200 lives in Israel, including more than 150 soldiers, with over 2,700 people injured.

In Gaza, the situation is equally grim, with at least 1,087 reported deaths and approximately 5,000 people injured.

Israeli Operations Continue:

Israeli fighter jets launched attacks on approximately 450 targets in Gaza within the last 24 hours. Notably, they heavily targeted the northern Gaza neighborhood of Al-Furqan, which Israel's armed forces claim is a focal point for Hamas activities.

Gaza's Power Plant Shut Down:

Gaza's sole power plant ran out of fuel and ceased operations after Israel cut off fuel, food, and electricity supplies in the aftermath of the conflict's escalation. This leaves the population of over 2 million people in Gaza with limited access to electricity.

International Involvement:

President Joe Biden has expressed strong condemnation of Hamas' attacks, pledging continued support to Israel.

King Abdullah of Jordan emphasized the necessity of a two-state solution for lasting peace in the Middle East, despite the ongoing hostilities.

UN and Humanitarian Crisis:

The United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) reported that nine of its staff members in Gaza have tragically lost their lives during the conflict.

The humanitarian situation in Gaza is rapidly deteriorating, with hospitals overwhelmed and in need of urgent assistance. The conflict has led to an outcry from international humanitarian organizations.

Displacement and Unity Government:

Over 260,000 people in Gaza have been displaced due to the airstrikes, representing approximately 10% of the population.

Israel's opposition leader, Yair Lapid, has expressed openness to forming an emergency unity government to ensure the safety of Israeli citizens. However, the inclusion of far-right factions remains a potential challenge.

The Israel-Hamas conflict remains highly complex, with a pressing humanitarian crisis in Gaza. Civilians, including journalists, are grappling with the heavy toll of the conflict, facing destruction that has rendered parts of Gaza unrecognizable and impacting their access to essential services. Despite international concerns, there are no immediate signs of a resolution to the ongoing conflict.

Proliferation of Misinformation on Social Media Amid Israel-Hamas Conflict

IN the aftermath of the recent Hamas attack on Israel, various social media platforms, with particular attention to Elon Musk's social network X, have experienced a surge in fabricated videos, images, and deceptive information concerning the ongoing conflict.

Shortly after the attack, X, owned by Elon Musk, became inundated with fabricated content and misinformation related to the situation. A notable example was a video shared by Ian Miles Cheong, a far-right commentator frequently engaged with by Musk, which falsely claimed to depict Palestinian fighters harming Israeli citizens. Although X's Community Note feature clarified that the individuals in the video were members of Israeli law enforcement, not Hamas, the deceptive video remains accessible and has garnered millions of views. What's more, numerous other X accounts, including some with verified checkmarks, have disseminated this clip.

While disinformation has also propagated across other social networks such as Facebook, Instagram, and TikTok, X appears to have faced the most significant challenge in combating it. This could be attributed to Musk's revised policies that enable anyone to pay for verification, in combination with substantial layoffs in X's Trust and Safety teams.

Despite these difficulties, X, Meta (the parent company of Facebook, Instagram, and Threads), TikTok, and BlueSky have yet to respond to inquiries about their approach to this issue. On Monday, X reported an excess of 50 million posts related to the conflict over the weekend. In response, the company revealed it had taken steps to remove recently created accounts

linked to Hamas, flagged tens of thousands of posts for sharing graphic content and hate speech, and updated its policies to define what it considers "newsworthy."

Irina Raicu, the director of the Internet Ethics Program at Santa Clara University, pointed out that major social media platforms often emphasize the quantity of posts removed and accounts blocked but rarely provide metrics on the extent of their failures in preventing distortions.

In recent years, social media platforms have repeatedly been exploited by malicious actors to disseminate disinformation during real-world conflicts. This was evident during the 2019 India-Pakistan crisis, which witnessed a surge in rumors and hoaxes on platforms like Twitter and Facebook.

More recently, X has seen posts similar to the one from a user known as The Indian Muslim, who shared a misleading video endorsing Hamas. Disinformation researchers, however, determined that this video originated from the video game Arma 3. Another post by Jim Ferguson falsely claimed to depict Hamas soldiers using US weapons left behind in Afghanistan. Community Notes clarified that the photo actually featured Taliban soldiers from 2021.

Dina Sadek, a Middle East research fellow at the Atlantic Council's DFRLab, underscored the prevalence of outdated and recycled footage circulating online, making it challenging for users to discern fact from fiction.

Disinformation isn't confined to a single platform; it frequently migrates between TikTok and X, complicating efforts to combat falsehoods.

Imran Ahmed, CEO of the Center for Countering Digital Hate, noted that "the influx of individuals spreading false information about the Israel-Gaza crisis, combined with algorithms that aggressively promote extreme and disturbing content, underscores why social media has become an unreliable source of information." He argued that tech companies have shown a lack of interest, if not outright complicity, in propagating dangerous propaganda.

Russia's Bid to Rejoin UN's Human Rights Council Unsuccessful

IN a significant development at the United Nations, Russia's attempt to regain its seat on the UN's human rights council has fallen short. The nation was previously expelled from this esteemed human rights body in April of last year, following its military incursion into Ukraine.

Russia had aimed to secure a fresh three-year term on the council, potentially exposing divisions among UN member states regarding their stance on supporting Ukraine. However, the Eastern European seats on the council were ultimately filled by Bulgaria and Albania.

This vote occurred in the wake of a tragic Russian missile strike that claimed the lives of 52 individuals in the north-eastern Ukrainian village of Hroza.

The voting results showed Russia receiving 83 votes in favor from the UN's 193 general assembly members, whereas Bulgaria garnered 160 votes, and Albania secured 123.

Prior to the vote, Albania's ambassador, Ferit Hoxha, emphasized the importance of member states demonstrating their unwillingness to "accept an arsonist as a firefighter."

Russia had pledged to address human rights concerns adequately and expressed its desire to prevent the council from being used as a tool serving the political agendas of certain countries, a reference often interpreted as directed toward Western nations.

Diplomats noted that Russia sought to rebuild its international credibility after facing allegations of widespread human rights violations both in Ukraine and within its own borders.

Russia had claimed that it had the support of numerous member states, especially from the developing world, in the confidential balloting process. It was suggested that these nations privately sympathized with Moscow but refrained from openly endorsing its return to the council to avoid antagonizing Western nations.

It's worth noting that Russia's campaign for reentry was marked by assertive tactics, including offering incentives such as grain and arms to smaller countries in exchange for their votes.

Vassily Nebenzia, Russia's ambassador to the UN, accused the United States of spearheading a campaign to prevent their reappointment to the council.

The suspension of Russia from the human rights council in April 2022 saw 93 UN general assembly members in favor, 24 against, and 58 abstaining. The newly constituted council for the years 2024 to 2027 will comprise Albania, Brazil, Bulgaria, Burundi, China, the Ivory Coast, Cuba, Dominican Republic, France, Ghana, Indonesia, Japan, Kuwait, Malawi, and the Netherlands.

Key Developments in Ukraine Conflict:

Belgium to Supply F-16s, Zelensky's Visit to Brussels, and More

IN this comprehensive overview, we delve into the latest updates concerning the ongoing conflict in Ukraine. The situation remains fluid, with significant developments on multiple fronts.

Here are the key highlights:

1. Belgium Commits to Supply F-16 Fighter Jets to Ukraine by 2025

Belgium has joined the growing list of nations supporting Ukraine in its conflict with Russia. The Belgian authorities have announced their intention to supply F-16 fighter jets to Ukraine. This move is part of Belgium's commitment to assist Ukraine both militarily and strategically. The jets are expected to be delivered starting in 2025.

2. Unannounced Visit by President Zelensky to Brussels

In a surprise move, President Zelensky of Ukraine made an unannounced visit to Brussels. The Ukrainian leader engaged in discussions with Belgian ministers and Prime Minister De Croo. During his visit, the situation in Ukraine took center stage in a two-day meeting of NATO defense ministers, hosted in the Belgian capital.

3. International Coalition Allocates €115 Million to Clear Mines in Ukraine

An international coalition, led by the United Kingdom and including the Netherlands, has approved a €115 million aid package for Ukraine. This financial support is intended for the procurement of equipment to clear landmines, a critical requirement for Ukraine's ongoing efforts in its conflict with Russia. The funding is derived from the International Fund for Ukraine, with contributions from various countries.

4. High-Ranking Defense Officials Detained on Embezzlement Charges

Ukraine continues its fight against corruption within its defense sector. Recently, two high-ranking officials from the Ukrainian Ministry of Defense were arrested on allegations of embezzling approximately €6 million. These funds were designated for the purchase of essential equipment, particularly bulletproof vests. The investigation revealed that substandard vests were ordered, resulting in significant losses and a severe impact on the nation's defense capabilities.

5. Germany Extends Support to Ukraine with a €1 Billion "Winter Package"

Germany has reaffirmed its commitment to assist Ukraine by providing additional support worth approximately €1 billion. The package includes essential military equipment, I air defense systems, and ground vehicles. German Defense Minister Boris Pistorius emphasized that this support would enhance the operational readiness of Ukrainian armed forces in the coming months.

6. Russia Fails to Regain a Seat on the UN Human Rights Council

Russia's bid to rejoin the United Nations Human Rights Council was unsuccessful. The country's suspension from the council in the aftermath of the events in Ukraine led to a vote on its reinstatement. However, Russia failed to secure the necessary support. The UN vote

saw Albania and Bulgaria receive more votes, signaling the global community's concerns about Russia's human rights record.

7. Optimism from IMF Regarding Ukraine's Economic Outlook

The International Monetary Fund (IMF) has expressed optimism regarding Ukraine's economic recovery. Initially predicting a 3% contraction for this year, the IMF has revised its forecast, now anticipating a 2% growth in the Ukrainian economy. For the following year, a growth rate of 3.2% is expected. This improvement is attributed to foreign assistance and the recovery of key sectors, such as agriculture and industry.

8. President Zelensky's Visit to Bucharest

President Zelensky of Ukraine has embarked on an official visit to Bucharest, Romania. This visit holds particular significance as it is Zelensky's first to the neighboring country since the Russian invasion of Ukraine. The President expressed gratitude for Romania's support and constructive solidarity in these challenging times.

9. UN Security Council Condemns Recent Russian Attacks

The United Nations Security Council has collectively condemned the recent attacks by Russia in Hroza and Kharkiv. These attacks resulted in numerous casualties, drawing severe international backlash. France, Switzerland, and Albania, among others, have criticized the attacks as blatant violations of international law. This development comes at a crucial time, as Russia seeks reentry into the UN Human Rights Council.

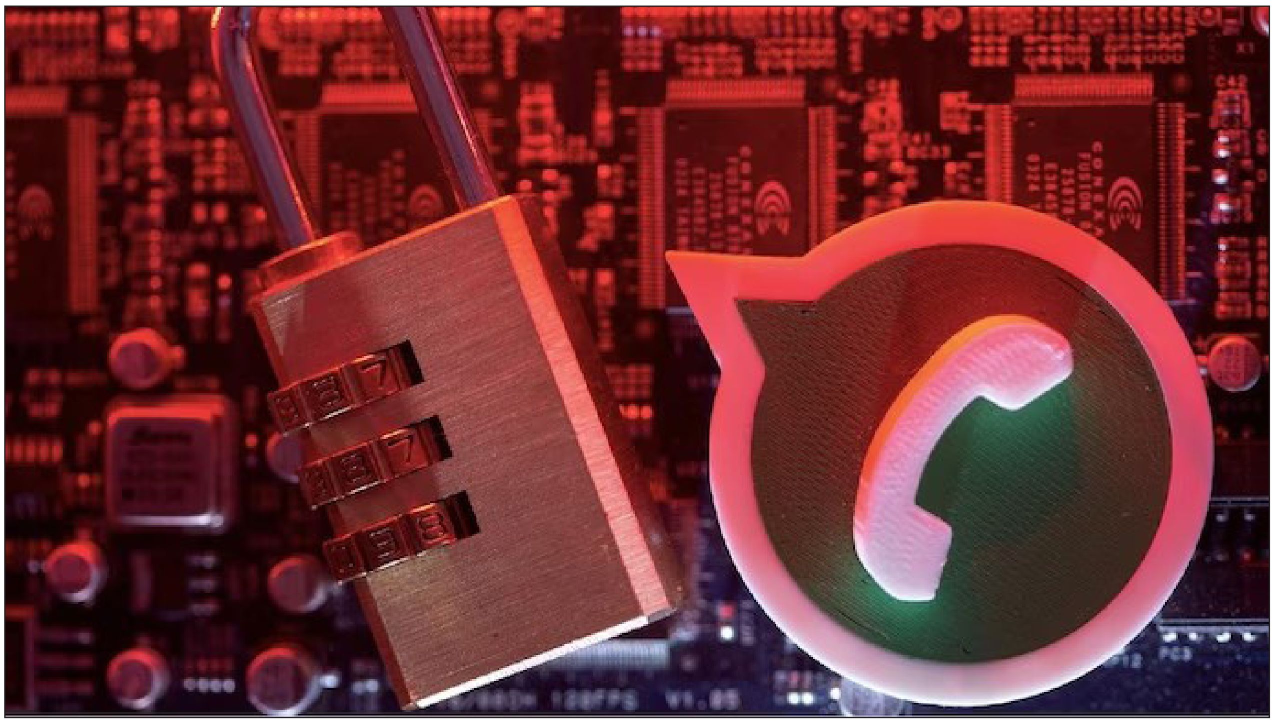

10. Concerns Surrounding the Return of Ukrainian Children from Russia

The United Nations has raised concerns regarding the lack of a systematic process to repatriate Ukrainian children who were taken to Russia or annexed areas such as Crimea since the Russian invasion. The UN High Commissioner for Human Rights cited that, of the nearly 20,000 children reported missing, only 400 have returned to Ukraine. The children often depend on their parents or guardians to locate and retrieve them, which can be a protracted and arduous endeavor.

These updates reflect the ever-evolving situation in Ukraine. International support for Ukraine continues to grow, but the conflict's complex nature presents ongoing challenges. As the situation unfolds, nations worldwide closely monitor these developments, cognizant of the profound impact they may have on both Ukraine and the international stage.

New European Plans to Fight Child Pornography Face Strong Criticism

NEW proposals from the European Commission aimed at significantly intensifying the fight against child pornography have encountered fierce opposition. A majority of the Dutch House of Representatives had already expressed their disagreement with these plans. Nevertheless, the Dutch caretaker government intends to partially support them.

These plans entail that chat services such as WhatsApp could be ordered to monitor the distribution of child pornography and potentially grooming, which involves the sexual targeting of minors. European privacy regulators, the National Rapporteur on Trafficking in Human Beings, and the legal department of the Council of the European Union have all raised serious concerns regarding these proposals.

Currently, it is challenging to monitor what happens in certain chat services because the messages are end-to-end encrypted. This means that services like WhatsApp, as well as the police and the judiciary, do not have access to the content of messages.

Nevertheless, the European Commission aims to compel chat apps to scan for abusive materials. Experts agree that this can only be achieved by monitoring chat apps on users' phones for this kind of content. In such a scenario, a "virus scanner" would be integrated within a chat app, which would trigger an alert upon detecting specific material. This material would then be forwarded to a new European anti-child pornography center for further examination.

This method, known as client-side scanning, has been the subject of controversy. Previously, computer scientists, including some highly renowned cryptography experts, labeled this idea as "extremely dangerous."

According to the European Commission, legislation is necessary because child pornography is being exchanged on a large scale. Currently, child pornography is combated based on voluntary actions, and this approach has proven to be inadequate, according to the Commission.

Netherlands believes the proposed plans go too far in using artificial intelligence to detect grooming. Furthermore, the Netherlands is against the use of artificial intelligence to automatically identify images of child pornography, even before they are included on a blacklist.

The minister highlights the importance of EU member states making progress in the fight against child abuse. She also writes that the Netherlands aims to ensure that fundamental rights are not "disproportionately restricted."

Kamerlid Queeny Rajkowski of the People's Party for Freedom and Democracy (VVD), one of the four parties in the Dutch House of Representatives that supported the legislation, shares this perspective. According to her, the "enormous flow" of child pornography needs to be stopped. She is confident that they can technically filter out child pornography while safeguarding the privacy of others who "have no harmful intentions."

Rejo Zenger, who closely monitors the negotiations on behalf of the civil rights organization Bits of Freedom, raises concerns regarding whether the negotiations will be concluded before new European elections are held in June. Zuiderveen Borgesius, a legal expert, points out that the legislation may face legal threats. "Scanning the chats of hundreds of millions of people to detect a relatively small number of criminals is overly invasive, no matter how serious the issue is."

He likens this legislation to EU regulations for combating terrorism, which entailed retaining the location and conversation data of all internet and telecom users. The European Court of Justice rejected that law because it was disproportionate.

Climate scenarios and a Climate Impact Atlas for Bonaire, Sint Eustatius, and Saba

THE (Dutch) Caribbean islands are facing unprecedented challenges posed by climate change, including rising sea levels, intensifying hurricanes, heatwaves, and heavy rainfall. In response to these threats, Royal Netherlands Meteorological Institute (KNMI) has published climate scenarios for the BES islands. In addition, a collaborative effort is underway to develop a Climate Impact Atlas for the BES islands, providing a crucial foundation for informed decision-making and sustainable development. In the week of October 16th, workshops and public lectures will be held on Curaçao and on Bonaire to share developments in climate information and management perspectives, and to discuss priorities for further development.

The KNMI'23 climate scenarios were presented to Minister Harbers on October 9th. Even in the most optimistic scenario, the climate will continue to change in the future, with major consequences for the Caribbean. The scenarios show that the Caribbean will become warmer and drier. This will be experienced as warmer periods during the rainy season and drier weather during the dry season. Of particular concern for Bonaire is sea level rise, which could be limited under the low emissions scenario, but could reach over one meter by 2100 under the high emissions scenario. The upper limit could be over 3 meters if uncertain processes, such as the Antarctic ice sheet becoming less stable, occur before 2100. On St Eustatius and Saba, the likelihood of severe hurricanes with heavy rainfall increases in the future. A Future Weather experiment shows that Hurricane Irma would have had even higher wind speeds and rainfall rates in a warmer climate.

The first version of the Climate Impact Atlas for the BES Islands is set to be developed in 2023, representing the initial phase of an ongoing initiative. This Climate Impact Atlas will translate scientific knowledge into accessible insights, offering essential information on climate change. The project was started in April 2023 and a demonstration of the concept for Bonaire will be included in the upcoming workshop in October. As the year concludes, the online Climate Impact Atlas, along with a roadmap for future developments, will be unveiled.

Collaboration

Financed by the Ministry of Infrastructure and Water Management, with the CAS Foundation as the coordinator, the Climate Impact Atlas has garnered support from various organizations. Other contributing organizations include the Openbaar Lichaam Bonaire (OLB), TERRAMAR museum, EcoVision, Wageningen Environmental Research (WENR), Instituut voor Milieuvraagstukken (VU-IVM), Koninklijk Nederlands Meteorologisch Instituut (KNMI), Technische Universiteit Delft (TU Delft), Rijkswaterstaat (RWS), Informatiehuis Marien, Deltares, RVO.nl, en het Koninklijk Instituut van Taal-Land- en Volkenkunde (KITLV) and Dutch Caribbean Nature Alliance (DCNA).

This project is closely related to other regional projects such as the development of a Climate Impact Atlas for Curacao: "KlimaKòrsou", Restoration of resilience Dutch Caribbean, SEALINK and Paratus.

Want to get involved?

In the research programme Islanders at the Helm researchers and civil society partners work together to offer/propose tailor-made solutions based on thorough interdisciplinary research. The aim is to develop new, sustainable and inclusive strategies in the face of current climate challenges.

A Transatlantic Platform (TAP) has been developed to offer courses, lectures and workshops to promote knowledge and awareness of climate challenges. The Universities in the region, such as the University of the West Indies St. Augustine Campus (Trinidad & Tobago - British Caribbean), University of the US Virgin Islands (UVI- US Caribbean), the Inter-Continental University of the Caribbean (Curaçao - Dutch Caribbean), Instituto Pedagogico Arubano (Aruba – Dutch Caribbean), The National Archaeological Museum Aruba (Aruba – Dutch Caribbean) and the University of St. Martin (Sint Maarten and Saint Martin – Dutch and French Caribbean), are integral partners in the TAP having hosted prior lecture series. There is a recognition that Kingdom-wide collaboration goes hand in hand with integration in the wider Caribbean basin.

Dean Kremer Pitches in Orioles' Postseason Game with Thoughts of Family in Israel

IN a poignant display of solidarity, pitcher Dean Kremer took the mound for the Baltimore Orioles in their postseason matchup against the Texas Rangers while his thoughts were thousands of miles away in Israel, where his family resides. Kremer, a dual Israeli-American citizen, couldnned a Star of David necklace as he embarked on a challenging postseason journey. His family members currently living in Israel were at the forefront of his mind, their safety inextricably linked to the ongoing conflicts that have engulfed the region.

Despite the turmoil and distressing events in Israel, Kremer never wavered in his commitment to pitch for the Orioles in the Major League Baseball (MLB) postseason. In his statement prior to Tuesday's game, the 27-year-old expressed relief about the well-being of his family in Israel, acknowledging the support he received from his teammates and manager, Brandon Hyde, during ya hesitation? No. I still want to pitch. But I mean, it's going to be in the back of my head." However, Kremer's commendable spirit couldn't prevent a disappointing outcome. The Orioles fell to the Rangers in Game 3 of the American League Division Series (ALDS) with a 7-1 defeat, marking the conclusion of their postseason journey in a 3-0 clean sweep by Texas.

For Baltimore, making its first postseason appearance since 2016, the outing was fraught with challenges from the outset, notably Kremer's struggles on the mound. Making his first-ever postseason start, he couldn't surmount the second inning, conceding six runs in just 1.2 innings pitched.

Meanwhile, the Rangers surged to a commanding 6-0 lead, bolstered by powerful home runs from Corey Seager and Adolis Garcia. A late homer by Nathaniel Lowe further secured the victory. Rangers pitcher Nathan Eovaldi exhibited remarkable prowess by throwing seven strong innings, allowing only one run and striking out seven.

The Orioles' inability to avoid a sweep was a cruel twist of fate. Before this postseason, they had evaded a series sweep throughout the regular season. However, they now share an unusual footnote in MLB history, becoming just the second team to transition from an entire regular season without being swept to being swept in the postseason. The only prior occurrence was the 1998 San Diego Padres, who experienced a similar fate in the World Series against the New York Yankees.

Despite the heartache of this season's ending, Baltimore's young team views this as a valuable learning experience. They have their sights set on the future, knowing that this journey is but a stepping stone.

As the Rangers progress to the American League Championship Series, it's a momentous return for the team, marking their first appearance since 2011. The path ahead sees them face off against either the Houston Astros or the Minnesota Twins, the next thrilling chapter in this MLB postseason.

LA28's Bold Proposition:

Five New Sports in the 2028 Olympic Program

IN a pivotal moment for the upcoming 2028 Olympic Games, the LA28 Olympic and Paralympic Games committee has presented its official proposal to the International Olympic Committee (IOC). The proposal seeks to include five new sports in the 2028 Olympic program, breathing new life and a sense of diversity into the world's most prestigious sporting event. The proposed sports are Baseball/Softball, Flag Football, Cricket (Twenty20), Lacrosse (Sixes), and Squash.

This strategic move marks an ambitious endeavor to redefine the sports landscape of the 2028 Olympics in a manner that resonates with the exuberance and creativity emblematic of Los Angeles. LA28 envisions invigorating the Games by leveraging the global appeal of these sports in a financially prudent manner. This endeavor aims to bring excitement to the existing base of Olympic enthusiasts while also extending a warm invitation to a new generation of athletes and fans to play a defining role in shaping the future of the Olympic movement.

Casey Wasserman, the Chairperson of LA28, underscored the significance of these proposed sports, describing them as relevant, innovative, and deeply rooted in communities. He emphasized that these sports are played across diverse settings, including backyards, schoolyards, community centers, stadiums, and parks, fostering a sense of global connection.

These five proposed sports will be integrated alongside the existing roster of 28 Olympic sports, which was originally announced by the IOC in February 2022. This diverse selection encompasses a wide array of disciplines, ranging from Aquatics and Archery to Athletics and Badminton.

It is essential to acknowledge that each organizing committee has the prerogative to consider introducing new sports to their respective editions of the Olympic Games. The proposal from LA28 emerges after a rigorous Request for Information (RFI) process initiated in June 2022, involving nine IOC-recognized International Federations (IF). These sports underwent a meticulous evaluation, guided by IOC-approved criteria that encompass economic responsibility, gender equity, sport integrity, fan engagement, and youth appeal.

Kathy Carter, CEO of LA28, emphasized the committee's commitment to challenging conventional norms and approaching the task with a fresh perspective, aiming to enhance the Games in Los Angeles. She articulated that the decision-making process was built on principles of fiscal responsibility. It ensures that the proposed sports would infuse the Games with cultural relevance while preserving the existing infrastructure for venue reuse and sport parks. This approach highlights LA28's unwavering commitment to delivering a remarkable Games experience while prioritizing the well-being of participants and fans.

The proposal for the inclusion of these new sports will be subject to review by the IOC Executive Board. The final decision on their incorporation into the 2028 Olympic program will be reached at the 141st IOC Session in Mumbai on October 16, 2023.

Lamine Yamal:

Barcelona's Young Sensation Making Waves in World Soccer

IN the hallowed halls of Barcelona, whispers of an emerging superstar have turned into a thunderous applause for Lamine Yamal. This electrifying 16-year-old attacker is not just taking his home club by storm but is rapidly gaining recognition on the global soccer stage.
Yamal's meteoric rise is nothing short of remarkable. At the tender age of 15 years and 290 days, he etched his name in the annals of Barcelona history by becoming the youngest player ever to grace the pitch in a competitive match for the Blaugrana.

His record-breaking journey didn't stop there. Yamal also secured the title of the youngest Barcelona player to feature in the prestigious UEFA Champions League, a feat only eclipsed by Borussia Dortmund's Youssoufa Moukoko. Then, in September, he sprinkled his enchantment on the Spanish national team by becoming both its youngest debutant and the youngest scorer in a dazzling 7-1 victory over Georgia.

As if these accolades weren't impressive enough, Yamal continued his whirlwind success story by becoming the youngest goalscorer in the history of La Liga. He netted a goal for Barcelona in a thrilling clash against Granada.
These achievements are staggering for a player who is yet to complete a full professional season. However, his upward trajectory shows no signs of slowing down, hinting at a boundless future for the precocious forward.

Born in Spain, Yamal's heritage adds a layer of intrigue to his story, with a Moroccan father and a mother from Equatorial Guinea. This prompted speculations about his national team allegiance, but any lingering doubt was put to rest when he proudly donned the Spanish colors.
Spanish national team manager Luis de la Fuente, a fervent supporter of Yamal, showered praise on the young prodigy. "He looks like he has been touched by the wand of God. He is different. He is ready to compete at the highest level. He is a very important asset for the future," declared De la Fuente, emphasizing the exceptional qualities that set Yamal apart.

However, such comparisons and effusive praise can be a double-edged sword, potentially burdening young talents with unrealistic expectations. Barcelona, with its renowned La Masia academy, has seen its share of young stars who struggled to meet towering prospects.
Yet, the budding star's fate might diverge from the norm. What sets him apart is the presence of Xavi Hernandez, an emblematic figure in Barcelona's history and now its head coach. Xavi, cautious about drawing parallels with past legends, nevertheless cannot conceal his admiration for Yamal's abilities and determination.

With the weight of unhelpful comparisons aside, the young sensation's gameplay resonates with echoes of a certain Lionel Messi. Yamal exhibits a preternatural ability to make the right decisions, often leaving defenders baffled by his lightning-quick agility. Although slight in build, he possesses the uncanny ability to dance out of tight situations, a trait reminiscent of Messi's artistry.

In a gesture of faith and commitment, Barcelona swiftly secured Yamal's future by extending his contract until June 2026. The deal includes a jaw-dropping buyout clause of one billion euros (roughly $1.05 billion), underscoring the club's immense belief in his potential to emerge as one of the world's finest players.

Now a fixture in both his club and national teams, the spotlight is firmly on Yamal this season. As expectations soar, the soccer world eagerly awaits to witness the rise of this gifted young talent and see if he can soar to meet these lofty predictions.

Exxon Mobil's Landmark $59.5 Billion Acquisition of Pioneer Natural Resources in Permian Shale Deal

EXXON Mobil (XOM) has officially sealed a significant deal to acquire Pioneer Natural Resources (PXD), the Permian Shale giant, for a staggering $59.5 billion. This acquisition, long speculated in recent weeks, holds immense implications for the energy sector.

The agreement outlines that Exxon will pay $253 per share in an all-stock transaction, offering investors 2.2324 Exxon shares for every PXD share. This results in a total enterprise value, including net debt, of $64.5 billion.

Exxon anticipates the deal will be finalized in the first half of 2024, marking a landmark move that cements the company's standing in the lucrative Permian Shale basin spanning east New Mexico and west Texas. This acquisition is set to significantly boost Exxon's production volume in the Permian, doubling it to an impressive 1.3 million barrels per day.

Rumors of this monumental transaction have been circulating, with The Wall Street Journal hinting at the impending deal on October 5, projecting a takeover valued at around $60 billion. Subsequently, Bloomberg suggested on Tuesday night that a per-share price exceeding $250 was imminent. It's worth noting that preliminary discussions between Exxon and Pioneer were reported by the WSJ back in April.

In response to this development, PXD stock experienced a 1.6% uptick early on Wednesday, reaching levels above 241. However, XOM stock showed an initial decline of 3.3%. The energy industry is closely watching these developments, which have generated considerable market movement. As this acquisition progresses, it is poised to reshape the landscape of the Permian Shale sector and significantly bolster Exxon Mobil's position within the energy market.
As of Wednesday morning, crude oil futures faced a nearly 1% drop, hovering around $85 per barrel.

Investors and industry analysts will be closely monitoring this acquisition and its potential impact on the broader energy landscape, as well as on the fortunes of both Exxon Mobil and Pioneer Natural Resources.

Unveiling the Alarming Acceptance of Domestic Violence in Society

DOMESTIC violence, a grave and pervasive issue, continues to persist not only due to its physical and emotional ramifications but also because, to a concerning degree, society appears to treat it as "normal." This deeply rooted acceptance of domestic violence raises urgent questions about why many individuals and communities tolerate such behavior and what must be done to change this dangerous norm.

Normalizing the Unthinkable

It is an uncomfortable reality that domestic violence, in its various forms, is often normalized or ignored. This normalization can manifest in subtle ways, such as trivializing aggressive behavior, dismissing emotional abuse as insignificant, or even blaming the victim. This normalization occurs for several reasons, including a lack of awareness, cultural factors, fear, and misconceptions about power dynamics in relationships.

Lack of Awareness

One significant factor contributing to the normalization of domestic violence is a lack of awareness. Many people may not recognize the signs of abuse or the full extent of its impact. This ignorance can lead to bystanders not intervening or victims remaining silent, trapped in their suffering.

Cultural Factors

Cultural norms and beliefs can also play a role in perpetuating domestic violence. Societal expectations and traditional gender roles may lead individuals to accept controlling or abusive behavior as part of their relationships, believing it to be "normal" or even justifiable.

Fear and Isolation

Victims of domestic violence often find themselves trapped in a cycle of fear and isolation. Their abusers may exert control by isolating them from friends and family, making it difficult to seek help. Fear of retaliation, harm, or legal repercussions can also discourage victims from coming forward.

Misconceptions About Power Dynamics

Society's misconceptions about power dynamics in relationships contribute to the normalization of domestic violence. Some believe that an intimate partner's controlling behavior is a form of love, which couldn't be further from the truth. The idea that violence is a sign of love or protection is not only incorrect but dangerous.

Breaking the Silence

The normalization of domestic violence in society is a deeply ingrained issue that requires proactive efforts to address. Recognizing the signs of abuse, offering support to victims, and educating individuals about healthy relationships are essential steps in breaking this dangerous cycle.

Organizations, social workers, educators, and advocates are working tirelessly to raise awareness and provide resources for those affected by domestic violence. By acknowledging the problem, facilitating open discussions, and creating safe spaces for victims to share their stories, we can hope to dismantle the harmful notion that domestic violence is "normal."

Conclusion

Domestic violence is a societal issue that must no longer be overlooked or accepted as "normal." It is imperative that we shed light on the problem, educate our communities, and provide resources to those in need. By addressing this issue head-on, we can work toward creating a safer and more compassionate society where domestic violence is met with condemnation rather than complacency.

Garden Bees and Their Crucial Role in Ecosystems

BEEs are one of nature's most industrious pollinators, and among them, garden bees play a vital role in ensuring the health of our ecosystems. These small but essential creatures contribute significantly to the natural world by pollinating plants, especially in home gardens and urban environments. Understanding the importance of garden bees and their impact is fundamental to appreciating the delicate balance of our ecosystem.

Garden Bees: The Unsung Pollinators

While honeybees often steal the limelight, garden bees, consisting of various native bee species, quietly perform their duties as valuable pollinators. These species include mason bees, leafcutter bees, bumblebees, and sweat bees. Garden bees have adapted to local environments and developed unique characteristics that make them efficient pollinators.

The Pollination Process

Garden bees are masterful pollinators. As they forage for nectar and pollen to feed their larvae, these bees transfer pollen from the male part (anther) to the female part (stigma) of flowers. This transfer fertilizes plants, allowing them to produce seeds and fruits. In doing so, garden bees play a crucial role in ensuring the reproduction of a wide range of plants, from ornamental flowers to food crops.

Biodiversity and Food Production

The importance of garden bees extends to preserving biodiversity and supporting food production. When these bees pollinate a variety of plants, they contribute to the genetic diversity of plant populations. Furthermore, many of our food crops, such as apples, berries, and almonds, rely heavily on bee pollination. A decline in bee populations would have far-reaching consequences for our food supply.

Boosting Garden and Urban Environments

Garden bees are particularly beneficial in garden and urban settings. They thrive in these environments, where a multitude of flowering plants can provide them with nectar and pollen. By supporting garden bee populations, we can enhance our gardens, encourage vibrant blooms, and increase fruit and vegetable yields.

Garden Bee Conservation

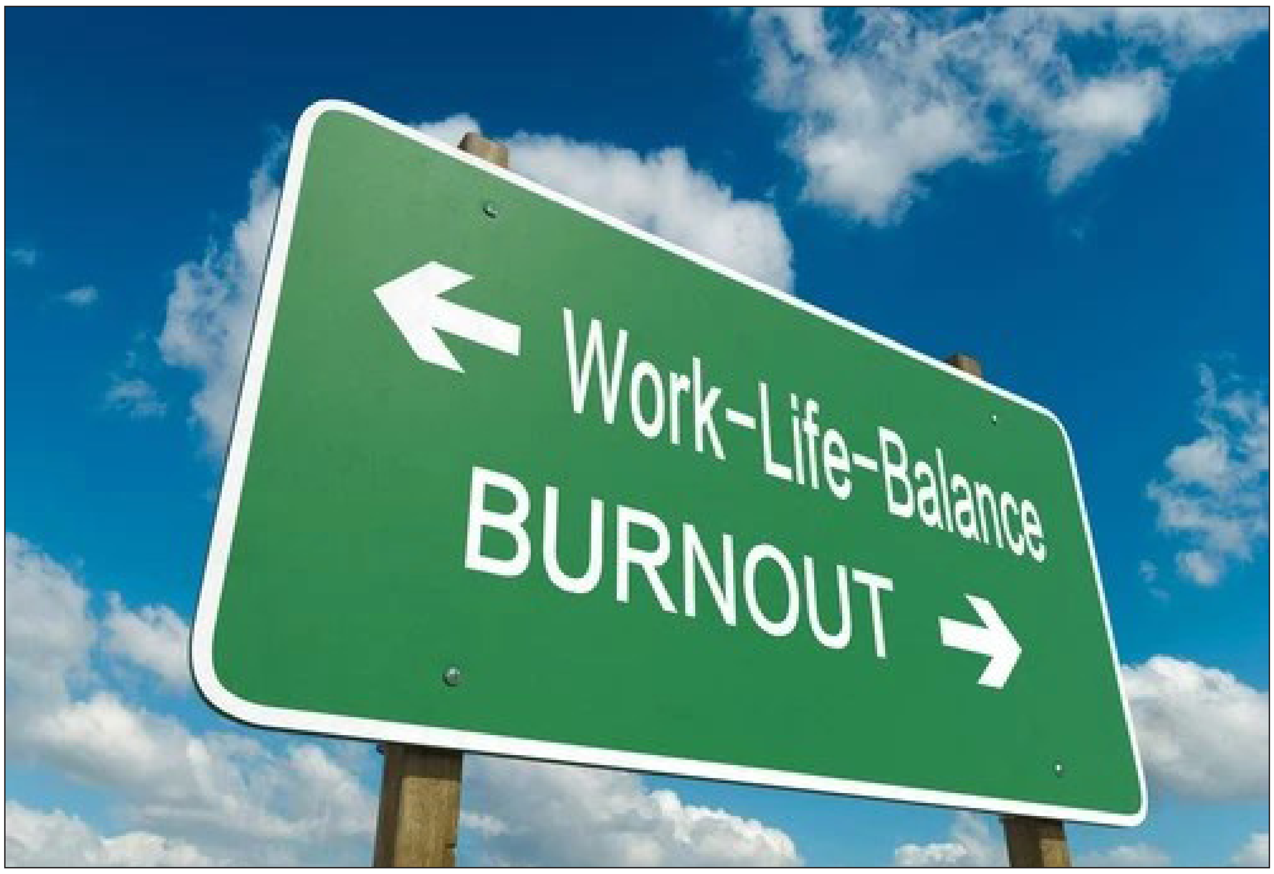

To protect these valuable pollinators, it is crucial to create a hospitable environment in gardens and urban spaces. Home gardeners can adopt bee-friendly practices by planting a diverse array of flowering plants, providing bee nesting sites, and avoiding harmful pesticides. These actions help ensure that garden bees can continue their essential role in pollination.

In conclusion, garden bees may be small in size, but their significance is immeasurable. Their role in pollination, biodiversity, and food production makes them indispensable to the health of our ecosystems. Recognizing the importance of garden bees and taking steps to support their conservation is not only essential for nature but also for the beauty and productivity of our gardens and urban landscapes.

Promoting Mental Health in the Workplace:

Strategies for a Balanced Work-Life Environment

IN today's fast-paced, competitive professional world, mental health in the workplace is an issue of increasing concern. The demanding nature of many jobs, coupled with long hours and high expectations, has given rise to a range of mental health challenges. Stress, burnout, and other related problems have become all too common. In response to this, many companies are taking action to create mentally healthy workplaces for their employees.

Stress in the Workplace

Stress at work is not a new phenomenon, but its impact on employees' mental health cannot be understated. The pressures to meet deadlines, handle demanding tasks, and achieve professional goals can lead to chronic stress. This can affect one's overall well-being and job satisfaction.

Employees experiencing high levels of stress may struggle to concentrate, feel overwhelmed, and, in the long term, face increased risks of anxiety and depression. Recognizing the signs of stress is the first step in addressing this issue effectively.

The Challenge of Burnout

Burnout, a more severe form of work-related stress, is another growing concern. It's characterized by emotional exhaustion, reduced performance, and a feeling of detachment from one's job. Burnout can occur when the demands of a job consistently exceed an employee's capacity to cope.

The consequences of burnout are detrimental to both employees and employers. Burnout often results in increased sick days, reduced productivity, and employee turnover. Preventing burnout is, therefore, a significant priority for many organizations.

Creating a Mentally Healthy Workplace

To combat stress and burnout, companies are taking proactive steps to foster a mentally healthy work environment. These initiatives are not only beneficial to employees but also enhance a company's overall performance.

Here are some strategies being employed:

Mental Health Support: Many companies are offering employee assistance programs (EAPs) that provide counseling and resources for managing stress and mental health issues.

Flexible Work Arrangements: Allowing flexible hours, remote work options, and compressed workweeks can help employees maintain a work-life balance.

Mental Health Training: Organizations are investing in training programs that raise awareness about mental health issues, helping employees recognize signs of stress and providing tools for coping.

Open Communication: Creating a culture of open dialogue about mental health removes stigma and encourages employees to seek help when needed.

Wellness Initiatives: Implementing wellness programs that promote physical activity, healthy eating, and mindfulness can boost overall well-being.

A Balanced Workload: Employers are reevaluating job expectations and ensuring that workloads are manageable, thus reducing the risk of burnout.

The Bottom Line

Promoting mental health in the workplace is not only a moral obligation but also makes good business sense. A mentally healthy workforce is more productive, innovative, and less likely to take extended sick leave. Employers who prioritize their employees' well-being not only create a better work environment but also see improvements in their bottom line.

In an increasingly competitive job market, companies that focus on mental health will likely attract and retain top talent. Ultimately, the well-being of employees is an investment in the future of any organization.

The Art of Productivity:

Time Management and Respect for Everyone's Time

IN today's fast-paced world, the ability to manage time effectively is not just a personal trait; it's a skill that's highly valued in both professional and personal spheres. The concept of time management is not just about meeting deadlines; it's also about showing respect for your own time and, equally importantly, for the time of others.

Productivity and efficiency have become synonymous with success, both in the workplace and in one's personal life. With the myriad of distractions and demands on our time, mastering time management is an art worth perfecting.

The Foundation: Prioritization and Planning

Effective time management starts with prioritization. Whether you're a student, a professional, or someone managing a household, identifying what truly matters is the first step. Understand your goals, both short-term and long-term, and break them down into actionable tasks.

Planning is another cornerstone of productivity. Create a schedule that allocates specific time blocks for each task, whether it's work-related, personal, or even leisure activities. By having a clear plan, you not only become more efficient but also free up time for yourself and your loved ones.

The Art of Saying "No"

One crucial aspect of time management is learning to say "no." It's tempting to take on numerous commitments, but overloading your schedule is a recipe for inefficiency. Prioritize your existing responsibilities and politely decline new ones when necessary. This doesn't mean you shouldn't be open to new opportunities, but it's about maintaining a healthy balance.

Digital Detox and Distraction Management

In our technology-driven world, digital devices can be both a boon and a bane. While they enhance productivity in many ways, they can also be a significant source of distraction. Practice digital detox by setting specific times to check emails, messages, or social media. The fewer distractions you have, the more focused and efficient you'll become.

Respecting Other People's Time

Productivity isn't just about your time; it's also about respecting other people's time. In a professional setting, arriving promptly for meetings and respecting deadlines is a sign of professionalism and courtesy. Punctuality and reliability are qualities that are highly valued by colleagues and superiors.

Similarly, in your personal life, showing up on time for social engagements and being considerate of other people's schedules reflects your respect for their time and strengthens your relationships.

The Value of "Me Time"

Finally, don't overlook the importance of "me time." Personal time for relaxation, hobbies, or simply doing nothing is vital for recharging and maintaining productivity. By allocating time for self-care, you'll be better equipped to manage your other responsibilities.

In conclusion, time management is a multifaceted skill that combines self-discipline, planning, and the ability to respect your time and that of others. When you master this art, you not only boost your productivity but also enhance your overall quality of life.

Whether in the workplace or in your personal relationships, the ability to manage time effectively is a trait that sets you on a path to success and fulfillment.

Rethinking Traditional Labels

Celebrating Strong and Empowered Women

IN the realm of self-improvement and personal development, discussions about "alpha," "beta," and even "sigma" personalities have been prevalent, often used to describe certain characteristics attributed to men. However, let's take a moment to celebrate strong and empowered women and explore how these concepts can be applied to females in an empowering and inclusive manner.

Alpha Women: Empowering Confidence and Leadership
Just like alpha men, alpha women exude confidence and assertiveness. They're the leaders and dominant figures in their own right. Alpha women are not afraid to voice their opinions, take the lead in various aspects of life, and inspire those around them. They're known for their charisma and the ability to bring people together.

While they may not fit the traditional mold of "strength and courage," their strength lies in their resilience, determination, and ability to effect change in their communities and workplaces. Alpha women are breaking glass ceilings and reshaping the world, and that's something to be celebrated.

Beta Women: The Power of Collaboration and Compassion
Beta women bring a unique strength to the table. They are often described as more passive and cooperative, but this shouldn't be seen as a limitation. Their nurturing and caring nature fosters collaboration and unity. They are the glue that holds families, communities, and workplaces together.

Beta women may not always seek leadership roles, but their impact is profound. Their compassion and empathy make them powerful agents of change, working towards a more inclusive and harmonious society. It's essential to recognize and honor the strength of beta women, who excel in emotional intelligence and building meaningful relationships.

Sigma Women: The Unconventional Path to Empowerment
While the concept of sigma women is less commonly discussed, it's crucial to acknowledge those who follow unconventional paths to empowerment. Sigma women are independent and non-conformist, often marching to the beat of their own drum. They prioritize autonomy, freedom, and personal growth.

Sigma women may not actively seek traditional social status or leadership, but their influence can be found in the unique and impactful ways they contribute to the world. They challenge the norms and stereotypes, encouraging others to embrace their individuality and pursue their passions.

Embracing Diversity: The New Paradigm
In today's world, the notion of an "ideal" personality is evolving. Celebrating and empowering women goes beyond predefined labels. We must recognize that powerful and intelligent women come in all forms. Strong, emotional, and intelligent women who embrace their authenticity are undeniably attractive, not just to themselves but to those who have the privilege of knowing them.

In conclusion, it's time to rewrite the script and redefine these personality labels in a way that empowers women. Strength, leadership, collaboration, and individuality are attributes that all women can embody. The path to empowerment is diverse and unique, just like the incredible women who walk it. Let's celebrate and support women on their journeys, regardless of the labels society may assign, and continue to champion their strength, intelligence, and emotional depth.
